Schedule of benefits

This schedule of benefits lists the policy year deductibles, copayments and coinsurance that apply to the services you receive under this plan. You should review this schedule of benefits to become familiar with your policy year deductibles, copayments and coinsurance and any limits that apply to the services and supplies.

How to read your schedule of benefits

- When we say:
  - “In-network coverage”, we mean you get care from our in-network providers.
  - “Out-of-network coverage”, we mean you can get care from out-of-network providers.
- The policy year deductibles, copayments and coinsurance listed in the schedule of benefits below reflects the policy year deductibles, copayment and coinsurance amounts under your plan.
- The coinsurance listed in the schedule of benefits reflects the plan coinsurance percentage. This is the coinsurance amount that the plan pays. You are responsible for paying any remaining coinsurance.
- You are responsible for paying any policy year deductibles, copayments, and coinsurance.
- You are responsible for full payment of any health care services you receive that are not a covered benefit.
- This plan has maximums for specific covered benefits. For example, these could be visit, day or dollar maximums. They are combined maximums for in-network providers and out-of-network providers unless we state otherwise.
- At the end of this schedule of benefits you will find detailed explanations about your:
  - Policy year deductibles
  - Copayment
  - Maximums
  - Coinsurance
  - Maximum out-of-pocket limits

Important note:

All covered benefits are subject to the policy year deductible and copayment and coinsurance unless otherwise noted in the schedule of benefits below.

How to contact us for help

We are here to answer your questions.

- Call Member Services at the toll-free number on your ID card 1-877-480-4161.

The coverage described in this schedule of benefits will be provided under Aetna’s student policy. This schedule of benefits replaces any schedule of benefits previously in effect under the student policy for medical and pharmacy coverage. Keep this schedule of benefits with your certificate of coverage.

Important note about your cost sharing:

The way the cost sharing works under this plan, you pay the policy year deductible first. Then you pay your copayment and then you pay your coinsurance. Your copayment does not apply towards any policy year deductible.

You are required to pay the policy year deductible before eligible health services are covered benefits under the plan, and then you pay your copayment and coinsurance.

Here's an example of how cost sharing works:

<table>
<thead>
<tr>
<th>You pay your policy year deductible</th>
<th>Your physician charges</th>
<th>Your physician collects the copayment from you</th>
<th>The plan pays 80% coinsurance</th>
<th>You pay 20% coinsurance</th>

Plan features

Policy year deductible
You have to meet your policy year deductible before this plan pays for benefits.

| Student | $350 per policy year | $600 per policy year |

Policy year deductible waiver
The policy year deductible is waived for all of the following eligible health services:
- In-network care for Preventive care and wellness
- In-network care for Pediatric Preventive Dental and Vision Services
- In-network and out-of-network care for Pre-admission testing if done within 10 days prior to an admission and Prescribed Medicines Expense
- In-network care for Mental Health and Substance Abuse Expense

Maximum out-of-pocket limits
Maximum out-of-pocket limit per policy year

**Preauthorization covered benefit penalty**

This only applies to out-of-network coverage: The certificate of coverage contains a complete description of the preauthorization program. You will find details on preauthorization requirements in the *Medical necessity and preauthorization requirements* section.

Failure to preauthorize your eligible health services when required will result in the following benefit penalty:
- A $500 benefit penalty will be applied separately to each type of eligible health service.

The additional percentage or dollar amount of the recognized charge which you may pay as a penalty for failure to obtain preauthorization is not a covered benefit, and will not be applied to the out-of-network policy year deductible amount or the maximum out-of-pocket limit, if any.

*See the How to read your schedule of benefits, Important note about your cost sharing and Important notices sections of this schedule of benefits.*
**Coinsurance listed in the schedule of benefits**

The *coinsurance* listed in the schedule of benefits below reflects the plan *coinsurance* percentage. This is the *coinsurance* amount that the plan pays. You are responsible for paying any remaining *coinsurance*.

</tbody>
</table>

**Important note:**
- As out-of-network providers do not have a contract with us the provider may not accept payment of your cost share, (copayment and coinsurance), as payment in full. You may receive a bill for the difference between the amount billed by the provider and the amount paid by this plan. If the provider bills you for an amount above your cost share, you are not responsible for paying that amount. You should send the bill to the address listed on your ID card, and we will resolve any payment dispute with the provider over that amount. Make sure the ID card number is on the bill.
- A separate hospital emergency room copayment will apply for each visit to an emergency room. If you are admitted to a hospital as an inpatient right after a visit to an emergency room, your emergency room copayment will be waived and your inpatient copayment will apply.
- Covered benefits that are applied to the hospital emergency room copayment cannot be applied to any other copayment under the plan. Likewise, a copayment that applies to other covered benefits under the plan cannot be applied to the hospital emergency room copayment.
- Separate copayment amounts may apply for certain services given to you in the hospital emergency room that are not part of the hospital emergency room benefit. These copayment amounts may be different from the hospital emergency room copayment. They are based on the specific service given to you.

- Resin-based composite restorations (other than for molars), D2330-1 surface anterior; D2331-2 surface anterior; D2332-3 surface anterior or D2334-4 or more surfaces or involving incisal angle (anterior)
- Resin-based composite restorations, D2391-1 surface posterior; D2392-2 surface posterior; D2393-3 surface posterior or D2394-4 or more surfaces posterior
- D2940-Protective resin
- D2941-Interim therapeutic restoration-primary teeth
- Pins
- D2951-Pin retention—per tooth, in addition to amalgam or resin restoration
- Crowns (when tooth cannot be restored with a filling material)
- Prefabricated stainless steel, D2930-primary teeth or D2931-permanent teeth
- D2932-Prefabricated resin crown (excluding temporary crowns)

*See the How to read your schedule of benefits, Important note about your cost sharing and Important notices sections of this schedule of benefits.*
- **Re-cementation**
  - D2910-Inlay
  - D2915-Fabricated-prefabricated post and core
  - D2920-Crown
  - D6930-Fixed partial denture retainers
  - D6092-Implant/abutment supported crown
  - D6093-Implant/abutment supported fixed partial denture

**Prosthodontics**

- **Dentures and partials**
  - Office reline, D5730-complete upper denture; D5731-complete lower denture; D5740-upper partial denture or D5741-lower partial denture
  - Laboratory relines, D5750-complete upper denture; D5751-complete lower denture, D5760-upper partial denture or D5761-lower partial denture
  - Special tissue conditioning, per denture, D5850-upper or D5851-lower
  - Rebase, per denture, D5710-complete upper denture; D5711-complete lower denture; D5720-upper partial denture or D5721-lower partial denture
  - Adjustment to denture (more than 6 months after installation), D5420-complete upper; D5411-complete lower; D5421-partial upper or D5422-partial lower

- **Full and partial denture repairs**
  - Broken dentures, no teeth involved, D5511-complete mandibular base or D5512-complete maxillary base
  - Repair cast framework (partial), D5621-mandibular or D5622-maxillary
  - D5520-Replacing missing or broken teeth, each tooth (complete denture)
  - Repair resin, D5611-partial mandibular base or D5612-partial maxillary base
  - D5630-Broken clasp, per tooth (partial denture)
  - D5640-Replace broken tooth-per tooth (partial denture)
  - D5670-Replace all teeth and acrylic on cast metal framework-upper partial denture
  - D5671-Replace all teeth and acrylic on cast metal framework-lower partial denture
  - Adding teeth to existing partial denture
    - D5650-Each tooth
    - D5660-Each clasp

- **Repairs: bridges; partial dentures, D6980-fixed and necessitated by material failure**

## Maximum out-of-pocket limits provisions

Eligible health services that are subject to the maximum out-of-pocket limits include covered benefits provided under the medical plan and outpatient prescription drug benefits provided under the prescription drug benefit.

Eligible health services applied to the out-of-network maximum out-of-pocket limit will not be applied to satisfy the in-network maximum out-of-pocket limit and eligible health services applied to the in-network maximum out-of-pocket limit will not be applied to satisfy the out-of-network maximum out-of-pocket limit.

The maximum out-of-pocket limit is the maximum amount you are responsible to pay for copayments, coinsurance and policy year deductibles for eligible health services during the policy year. This plan has an individual maximum-out-of-pocket limit.

### Individual

Once the amount of the copayments, coinsurance and policy year deductibles you have paid for eligible health services during the policy year meets the individual maximum out-of-pocket limits, this plan will pay:

- 100% of the negotiated charge for in-network covered benefits
- 100% of the recognized charge for out-of-network covered benefits

that apply for the rest of the policy year for that person.

The maximum out-of-pocket limit may not apply to certain eligible health services. If the maximum out-of-pocket limit does not apply to a covered benefit, your copayment, coinsurance for that covered benefit will not count toward satisfying the maximum out-of-pocket limit amount.

### Medical and Outpatient Prescription Drugs

#### In-network care

Costs that you incur that do not apply to your in-network maximum out-of-pocket limits.

Certain costs that you incur do not apply toward the maximum out-of-pocket limit. These include:

- All costs for non-covered services
- All costs for non-emergency use of the emergency room
- All costs incurred for non-urgent use of an urgent care provider

#### Out-of-network care

Costs that you incur that do not apply to your out-of-network maximum out-of-pocket limits.

Certain costs that you incur do not apply toward the maximum out-of-pocket limit. These include:

- Charges, expenses or costs in excess of the recognized charge
- All costs for non-covered services
- All costs for non-emergency use of the emergency room
- All costs incurred for non-urgent use of an urgent care provider

*See the How to read your schedule of benefits, Important note about your cost sharing and Important notices sections of this schedule of benefits.*
Calculations; determination of recognized charge; determination of benefits provisions

Your financial responsibility for the costs of services will be calculated on the basis of when the service or supply is provided, not when payment is made. Benefits will be pro-rated to account for treatment or portions of stays that occur in more than one policy year. Determinations regarding when benefits are covered are subject to the terms and conditions of the certificate of coverage.

• Notice of Non-Discrimination:
  Aetna Life Insurance Company does not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation, or health status in the administration of the plan including enrollment and benefit determinations.

• Sanctioned Countries:
  If coverage provided under this student policy violates or will violate any economic or trade sanctions, the coverage will be invalid immediately. For example, we cannot pay for eligible health services if it violates a financial sanction regulation. This includes sanctions related to a person or a country under sanction by the United States, unless it is allowed under a written license from the Office of Foreign Asset Control (OFAC). Welcome

Thank you for choosing Aetna.

This is your certificate of coverage. It is one of three documents that together describe the benefits covered by your Aetna plan for in-network and out-of-network coverage.

This certificate of coverage will tell you about your covered benefits – what they are and how you get them. If you become insured, this certificate of coverage becomes your certificate of coverage under the student policy, and it takes place of all certificates of coverage describing similar coverage that were previously sent to you. The second document is the schedule of benefits. It tells you how we share expenses for eligible health services and tells you about limits – like when your plan covers only a certain number of visits.

The third document is the student policy between Aetna Life Insurance Company (“Aetna”) and the policyholder. Ask the policyholder if you have any questions about the student policy.

Oh, and each of these documents may have amendments or riders attached to them. They change or add to the documents they’re part of.

Where to next? Flip through the Table of contents or try the Let’s get started! section right after it. The Let’s get started! section gives you a thumbnail sketch of how your plan works. The more you understand, the more you can get out of your plan.

Welcome to your Aetna plan.

Let’s get started!

Here are some basics. First things first – some notes on how we use words. Then we explain how your plan works so you can get the most out of your coverage. But for all the details – and this is very important – you need to read this entire certificate of coverage and the schedule of benefits. And if you need help or more information, we tell you how to reach us.

Some notes on how we use words in the certificate of coverage and schedule of benefits
- When we say “you” and “your”, we mean the covered student
- When we say “us”, “we”, and “our”, we mean Aetna
- Some words appear in bold type. We define them in the Glossary section

Sometimes we use technical medical language that is familiar to medical providers.

What your plan does – providing covered benefits
Your plan provides covered benefits. These are eligible health services for which your plan has the obligation to pay.

This plan provides in-network and out-of-network coverage for medical and pharmacy insurance coverage.

How your plan works – starting and stopping coverage
Your coverage under the plan has a start and an end. You start coverage after the eligibility and enrollment process is completed. To learn more see the Who the plan covers section.

Your coverage typically ends when you are no longer a student. To learn more see the When coverage ends section.

Ending coverage under the plan doesn’t necessarily mean you lose coverage with us. See the Special coverage options after your plan coverage ends section.

Eligible health services
Physician and hospital services are the foundation for many other services. You’ll probably find the preventive care, emergency services and urgent condition coverage especially important. But the plan won’t always cover the services you want. Sometimes it doesn’t cover health care services your physician will want you to have.

So what are eligible health services? They are health care services that meet these three requirements:
- They are listed in the Eligible health services under your plan section.
- They are not carved out in the What your plan doesn’t cover – eligible health service exceptions and exclusions section. We refer to this entire section as the “Exceptions” section.
- They are not beyond any limits in the schedule of benefits.
Paying for eligible health services— the general requirements
There are several general requirements for the plan to pay any part of the expense for an eligible health service. They are:

- The eligible health service is medically necessary
- You get the eligible health service from an in-network provider or out-of-network provider
- You or your provider preauthorizes the eligible health service when required

You will find details on medical necessity and preauthorization requirements in the Medical necessity and preauthorization requirements section.

Paying for eligible health services— sharing the expense
Generally your plan and you will share the expense of your eligible health services when you meet the general requirements for paying.

But sometimes your plan will pay the entire expense and sometimes you will. For more information see the What the plan pays and what you pay section, and see the schedule of benefits.

Disagreements
We know that people sometimes see things differently.

The plan tells you how we will work through our differences. And if we still disagree, an independent group of experts called an “independent review organization” or IRO for short, will make the final decision for us.

For more information see the When you disagree - claim decisions and appeals procedures section.

How your plan works while you are covered for in-network coverage
Your in-network coverage helps you:

- Get and pay for a lot of – but not all – health care services
- Pay less cost share when you use an in-network provider

School health services
School health services can give you some of the care that you need. Contact them first before seeking care from an in-network provider.

Aetna’s network of providers
Aetna’s network of physicians, hospitals and other health care providers are there to give you the care that you need. You can find in-network providers and see important information about them most easily on our online provider directory. Just log into your Aetna Navigator® secure website at www.aetnastudenthealth.com.

If you can’t find an in-network provider for a service or supply that you need, call Member Services at the toll-free number on your ID card. We will help you find an in-network provider. If we can’t find one, we may give you a pre-approval to get the service or supply from an out-of-network provider. When you get a pre-approval for an out-of-network provider, covered benefits are paid at the in-network coverage level of benefits.
How your plan works while you are covered out-of-network coverage

The section above told you how your plan works while you are covered for in-network coverage. You also have coverage when:

- You want to get your care from providers who are not part of the Aetna network

It’s called out-of-network coverage. Your out-of-network coverage helps you get and pay for a lot of – but not all – health care services.

Your out-of-network coverage:

- Means you can get care from providers who are not part of the Aetna network.
- Means you will have to pay for services at the time that they are provided. You will be required to pay the full charges and submit a claim for reimbursement to us. You are responsible for completing and submitting claim forms for reimbursement of eligible health services that you paid directly to a provider.
- Means that when you use out-of-network coverage, it is your responsibility to start the preauthorization process with providers.
- Means you may pay a higher cost share when you use an out-of-network provider.

You will find details on:

- Preauthorization requirements in the Medical necessity and preauthorization requirements section.
- Out-of-network providers and any exceptions in the Who provides the care section.
- Cost sharing in the What the plan pays and what you pay section, and your schedule of benefits.
- Claim information in the When you disagree - claim decisions and appeals procedures section.

How to contact us for help

We are here to answer your questions. You can contact us by:

- Logging onto your Aetna Navigator® secure website at www.aetnastudenthealth.com
- Registering for Aetna Navigator®, our secure Internet access to reliable health information, tools and resources.

Aetna Navigator® online tools will make it easier for you to make informed decisions about your health care, view claims, research care and treatment options, and access information on health and wellness.

You can also contact us by:

- Calling our Member Services at the toll-free number 1-877-480-4161
- Writing us at Aetna Life Insurance Company, 151 Farmington Ave, Hartford, CT 06156

Your ID card

We issued to you a digital ID card which you can view or print by going to the secure website at www.aetnastudenthealth.com. When visiting physicians, hospitals, and other providers, you don’t need to show them an ID card. Just provide your name, date of birth and either your digital ID card or social security number. The provider office can use that information to verify your eligibility and benefits. Remember, only you can use your digital ID card. If you misuse your card by allowing someone else to use it, that is fraud and we may end your coverage. See the Honest mistakes and intentional deception section for details.

If you don’t have internet access, call Member Services at the toll-free number in the How to contact us for help section. You can also access your ID card when you’re on the go. To learn more, visit us at www.aetnastudenthealth.com/mobile.
Who the plan covers

The policyholder decides and tells us who is eligible for health care coverage.

You will find information in this section about:
- Who is eligible?
- When you can join the plan
- Special times you can join the plan

Who is eligible?

All classes of students are eligible.

If we find out that you do not meet this eligibility requirement, we are only required to refund any premium contribution minus any claims that we have paid.

Medicare eligibility

You are not eligible for health coverage under this student policy if you have Medicare at the time of enrollment in this student plan.

If you obtain Medicare after you enrolled in this student plan, your health coverage under this plan will not end.

As used here, “have Medicare” means that you are entitled to benefits under Part A (receiving free Part A) or enrolled in Part B or Premium Part A.

When you can join the plan

As a student you can enroll yourself:
- During the enrollment period
- At other special times during the year (see the Special times you can join the plan section below)

If you do not enroll yourself when you first qualify for medical benefits, you may have to wait until the next enrollment period to join.

Notification of change in status

It is important that you notify us of any changes in your benefit status. This will help us effectively deliver your benefits. Please notify us and the policyholder as soon as possible of status changes such as:
- Change of address
- Change in marital status
- Enrollment in Medicare
- You enroll in any other health plan
Special times you can join the plan
You can enroll in these situations:
• When you did not enroll in this plan before because:
  - You were covered by another health plan, and now that other coverage has ended.
  - You had COBRA, and now that coverage has ended.
• You become eligible for State premium assistance under Medicaid or an S-CHIP plan for the payment of your premium contribution for coverage under this plan.
• When you are a victim of domestic abuse or spousal abandonment and you don’t want to be enrolled in the perpetrator’s health plan.

We must receive your completed enrollment information from you within 31 days of that date on which you no longer have the other coverage mentioned above.

Effective date of coverage
Enrollment
Student coverage
If you enrolled on or before the effective date of the student policy and you were eligible for health benefits at the time, your coverage will take effect as of the effective date of the student policy. Your coverage will take effect on this date if we received your completed enrollment application or you did not submit a waiver form to waive automatic enrollment in the student plan and you paid any required premium contribution.

If you enroll after the effective date of the student policy and you are eligible for health benefits at the time, your coverage will take effect as of that date as long as:
• We agree
• We receive your completed request for enrollment
• You pay any premium contribution.

Late enrollment
If we receive your enrollment application and premium contribution more than 31 days after the date you become eligible, coverage will only become effective if, and when:
• We agree to enroll you
• You enroll during the policyholder’s late enrollment period, or
• You enroll because you lost coverage for any reason under another health plan with similar health coverage
Medical necessity and preauthorization requirements

The starting point for covered benefits under your plan is whether the services and supplies are eligible health services. See the Eligible health services under your plan and Exceptions sections plus the schedule of benefits.

Your plan pays for its share of the expense for eligible health services only if the general requirements are met. They are:

- The eligible health service is medically necessary
- You or your provider preauthorizes the eligible health service when required

This section addresses the medical necessity and preauthorization requirements.

Medically necessary; medical necessity
As we said in the Let’s get started! section, medical necessity is a requirement for you to receive a covered benefit under this plan.

The medical necessity requirements are stated in the Glossary section, where we define "medically necessary, medical necessity". That is where we also explain what our medical directors or their physician designees consider when determining if an eligible health service is medically necessary.

Preauthorization
You need preauthorization from us for some eligible health services.

Preauthorization for medical services and supplies

In-network care
Your in-network physician is responsible for obtaining any necessary preauthorization before you get the care. If your in-network physician doesn't get a required preauthorization, you will only have to pay your applicable policy year deductible and/or copayment/coinsurance. If your in-network physician requests preauthorization and we refuse it, you can still get the care but the plan won’t pay for it. You will find details on requirements in the What the plan pays and what you pay - Important exceptions – when you pay all section.

Out-of-network care
When you go to an out-of-network provider, it is your responsibility to obtain preauthorization from us for any services and supplies on the preauthorization list. If you do not preauthorize, your benefits may be reduced, or the plan may not pay any benefits. Refer to your schedule of benefits for this information. The list of services and supplies requiring preauthorization appears later in this section. Also, for any preauthorization benefit penalty that is applied, see the schedule of benefits Preauthorization covered benefit penalty section.
Preauthorization call

Preauthorization should be secured within the timeframes specified below. To obtain preauthorization, call Member Services at the toll-free number on your ID card. This call must be made:

<table>
<thead>
<tr>
<th>Non-emergency admissions:</th>
<th>You, your physician or the facility will need to call and request preauthorization at least 3 days before the date you are scheduled to be admitted.</th>
</tr>
</thead>
<tbody>
<tr>
<td>An emergency admission:</td>
<td>You, your physician or the facility must call within 48 hours or as soon as reasonably possible after you have been admitted.</td>
</tr>
<tr>
<td>An urgent admission:</td>
<td>You, your physician or the facility will need to call before you are scheduled to be admitted. An urgent admission is a hospital admission by a physician due to the onset of or change in an illness, the diagnosis of an illness, or an injury.</td>
</tr>
<tr>
<td>Outpatient non-emergency services requiring preauthorization:</td>
<td>You or your physician must call at least 3 days before the outpatient care is provided, or the treatment or procedure is scheduled.</td>
</tr>
</tbody>
</table>

Notification calls for certain medical conditions

You must notify us for certain medical conditions within the timeframe specified below. No penalty will apply if you fail to notify us. To notify us, call the Member Services toll-free number on your ID card.

| Notification call for an emergency medical condition: | You, your physician or the facility must call us within 24 hours or as soon as reasonably possible after receiving emergency outpatient care, treatment or procedure. |

Written notification of preauthorization decisions

We will provide a written notification to you and your physician of the preauthorization decision, where required by state law. If your preauthorized services are approved, the approval is valid for 60 days as long as you remain enrolled in the plan.

Inpatient and outpatient preauthorization

When you have an inpatient admission to a facility, we will notify you, your physician and the facility about your preauthorized length of stay. If your physician recommends that your stay be extended, additional days will need to be preauthorized. You, your physician, or the facility will need to call us at the number on your ID card as soon as reasonably possible, but no later than the final authorized day. We will review and process the request for an extended stay. You and your physician will receive a notification of an approval or denial.

When you have an outpatient service or supply that requires preauthorization, we will notify you, your physician and the facility about your preauthorized outpatient service or supply. If your physician recommends that your outpatient service or supply benefits be extended, the additional outpatient benefits will need to be preauthorized. You, your physician, or the facility will need to call us at the number on your ID card as soon as reasonably possible, but no later than the final day of the authorized outpatient service or supply. We will review and process the request for the extended outpatient benefits. You and your physician will receive a notification of an approval or denial.

If preauthorization determines that the stay or outpatient services and supplies are not covered benefits, the notification will explain why and how you can appeal our decision. You or your provider may request a review of the preauthorization decision. See the When you disagree - claim decisions and appeals procedures section.
What if you don’t obtain the required preauthorization?
If you don’t obtain the required preauthorization:

- Your benefits may be reduced, or the plan may not pay any benefits. See the schedule of benefits Preauthorization penalty section.
- You will be responsible for the unpaid balance of the bills.
- Any additional out-of-pocket expenses incurred will not count toward your out-of-network policy year deductibles or maximum out-of-pocket limits.

What types of services require preauthorization?
Preauthorization is required for the following types of services and supplies:

<table>
<thead>
<tr>
<th>Inpatient services and supplies</th>
<th>Outpatient services and supplies</th>
</tr>
</thead>

How can I request a medical exception?
Sometimes you or your prescriber may ask for a medical exception to get health care services for prescription drugs that are not covered under this plan or for which health care services are denied through preauthorization or step therapy. You or your prescriber can contact us. You will need to provide us with the required clinical documentation. We will make a coverage determination within 72 hours after we receive your request and any information. We will tell you and your prescriber of our decision. Any exception granted is based upon an individual, case by case decision, and will not apply to other covered persons. If approved by us, you will receive the non-preferred benefit level and the exception will apply for the entire time of the prescription.

You, someone who represents you, or your prescriber may seek a quicker medical exception process to get coverage for non-covered drugs in an urgent situation. An urgent situation happens when you have a health condition that may seriously affect your life, health, or ability to get back maximum function or when you are going through a current course of treatment using a non-preferred drug. You, someone who represents you or your prescriber may submit a request for a quicker review for an urgent situation by:

- Contacting our Preauthorization Department at 1-855-582-2025
- Faxing the request to 1-855-330-1716
- Submitting the request in writing to CVS/pharmacy® Health ATTN: Aetna PA 1300 E Campbell Road Richardson, TX 75081

We will make a coverage determination within 24 hours after we receive your request and will tell you, someone who represents you and your prescriber of our decision. If approved by us, the exception will apply for the entire time you have an urgent situation.

If you are denied a medical exception based on the above processes, you may have the right to a third party review by an independent review organization. If our claim decision is one that allows you to ask for an independent review, we will say that in the notice of adverse determination we send you. That notice also will describe the independent review process. We will tell you, someone who represents you or your prescriber of the coverage determination of the independent review no later than 72 hours after we receive your request. If the medical exception is approved, coverage will be provided for the entire time of the prescription. For quicker medical exceptions in urgent situations, we will tell you, someone who represents you or your prescriber of the coverage determination no later than 24 hours after we receive your request. If the quicker medical exception is approved, coverage will be provided for the entire time you have an urgent situation.
Eligible health services under your plan

The information in this section is the first step to understanding your plan’s eligible health services.

Your plan covers many kinds of health care services and supplies, such as physician care and hospital stays. But sometimes those services are not covered at all or are covered only up to a limit.

For example,
- Physician care generally is covered but physician care for cosmetic surgery is never covered. This is an exception (exclusion).
- Home health care is generally covered but it is a covered benefit only up to a set number of visits a year. This is a limitation.

You can find out about these exceptions in the Exceptions section and about the limitations in the schedule of benefits.

We've grouped the health care services below to make it easier for you to find what you're looking for.

**Important note:**
Sex-specific eligible health services are covered when medically appropriate, regardless of identified gender.

1. Preventive care and wellness

This section describes the eligible health services and supplies available under your plan when you are well.

**Important notes:**
1. You will see references to the following recommendations and guidelines in this section:
   - Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention
   - United States Preventive Services Task Force
   - Health Resources and Services Administration
   - American Academy of Pediatrics/Bright Futures/Health Resources and Services Administration guidelines for children and adolescents

   These recommendations and guidelines may be updated periodically. When these are updated, they will be applied to this plan. The updates will be effective on the first day of the calendar year, one year after the updated recommendation or guideline is issued.

2. Diagnostic testing for the treatment or diagnosis of a medical condition will not be covered under the preventive care and wellness benefit. For those tests, you will pay the cost sharing specific to eligible health services for diagnostic testing for the treatment or diagnosis of a medical condition.
3. Gender-specific preventive care and wellness benefits include **eligible health services** described below regardless of the sex you were assigned at birth, your gender identity, or your recorded gender.

4. To learn what frequency and age limits apply to routine physical exams and routine cancer screenings, contact your **physician** or contact Member Services by logging on to your Aetna Navigator® secure website at [www.aetnastudenthealth.com](http://www.aetnastudenthealth.com) or by calling the toll-free number on your ID card. This information can also be found at the [www.HealthCare.gov](http://www.HealthCare.gov) website.

5. We may use reasonable medical management techniques to determine the frequency, method, treatment, or setting of preventive care and wellness benefits when not specified in the recommendations and guidelines of the:
   - Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention
   - United States Preventive Services Task Force
   - Health Resources and Services Administration
   - American Academy of Pediatrics/Bright Futures/Health Resources and Services Administration guidelines for children and adolescents

### Routine physical exams

**Eligible health services** include office visits to your **physician** or other **health professional** for routine physical exams. This includes routine vision and hearing screenings given as part of the exam. A routine exam is a medical exam given by a **physician** for a reason other than to diagnose or treat a suspected or identified **illness** or **injury**:

Eligible health services also include immunizations recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

Your plan does not cover immunizations that are not considered preventive care, such as those required due to your employment.

Well woman preventive visits

Eligible health services include your routine:

- Well woman preventive exam office visit to your physician, obstetrician (OB), gynecologist (GYN) or OB/GYN. This includes Pap smears. Your plan covers the exams recommended by the Health Resources and Services Administration. A routine well woman preventive exam is a medical exam given for a reason other than to diagnose or treat a suspected or identified illness or injury.
- Preventive care breast cancer (BRCA) gene blood testing by a physician and lab.
- Preventive breast cancer genetic counseling provided by a genetic counselor to interpret the test results and evaluate treatment.

Preventive screening and counseling services

Eligible health services include screening and counseling by your health professional for some conditions. These are obesity, misuse of alcohol and/or drugs, use of tobacco products, sexually transmitted infection counseling and genetic risk counseling for breast and ovarian cancer. Your plan will cover the services you get in an individual or group setting.

Here is more detail about those benefits:

- **Obesity and/or healthy diet counseling**
  
  Eligible health services include the following screening and counseling services to aid in weight reduction due to obesity:
  - Preventive counseling visits and/or risk factor reduction intervention
  - Nutritional counseling
  - Healthy diet counseling visits provided in connection with Hyperlipidemia (high cholesterol) and other known risk factors for cardiovascular and diet-related chronic disease

- **Misuse of alcohol and/or drugs**
  
  Eligible health services include the following screening and counseling services to help prevent or reduce the use of an alcohol agent or controlled substance:
  - Preventive counseling visits
  - Risk factor reduction intervention
  - A structured assessment
• **Use of tobacco products**
  **Eligible health services** include the following screening and counseling services to help you to stop the use of tobacco products:
  - Preventive counseling visits
  - Treatment visits
  - Class visits

  Tobacco product means a substance containing tobacco or nicotine such as:
  - Cigarettes
  - Cigars
  - Smoking tobacco
  - Snuff
  - Smokeless tobacco
  - Candy-like products that contain tobacco

• **Sexually transmitted infection counseling**
  **Eligible health services** include the counseling services to help you prevent or reduce sexually transmitted infections.

• **Genetic risk counseling for breast and ovarian cancer**
  **Eligible health services** include the counseling and evaluation services to help you assess whether or not you are at increased risk for breast and ovarian cancer.

**Routine cancer screenings**
**Eligible health services** include the following routine cancer screenings:

- Mammograms (All forms of low-dose mammography, including digital mammography and breast tomosynthesis)
- Prostate specific antigen (PSA) tests
- Digital rectal exams
- Fecal occult blood tests
- Sigmoidoscopies
- Double contrast barium enemas (DCBE)
- Colonoscopies (includes:
  - Bowel preparation medications
  - Anesthesia
  - Removal of polyps performed during a screening procedure
  - Pathology exam on any removed polyps)

- Lung cancer screenings

Unless otherwise stated in the schedule of benefits, these benefits will be subject to any age, family history and frequency guidelines that are:

- Evidence-based items or services that have in effect a rating of A or B in the recommendations of the United States Preventive Services Task Force
- Evidence-informed items or services provided in the comprehensive guidelines supported by the Health Resources and Services Administration
Prenatal care

Eligible health services include your routine prenatal physical exams as Preventive Care and wellness, which is the initial and subsequent history and physical exam such as:

- Maternal weight
- Blood pressure
- Fetal heart rate check
- Fundal height
- Preeclampsia screening

You can get this care at your physician’s, OB’s, GYN’s, or OB/GYN’s office.

Important note:
You should review the benefit under Eligible health services under your plan Maternity care, Well newborn nursery care and the Exceptions sections of this certificate of coverage for more information on coverage for pregnancy expenses under this plan.

Comprehensive lactation support and counseling services

Eligible health services include comprehensive lactation support (assistance and training in breast feeding) and counseling services during pregnancy or at any time following delivery for breast-feeding. Your plan will cover this when you get it in an individual or group setting. Your plan will cover this counseling only when you get it from a certified lactation support provider.

Breast feeding durable medical equipment

Eligible health services include renting or buying durable medical equipment you need to pump and store breast milk as follows:

Breast pump

Eligible health services include:

- Renting a hospital grade electric pump while your newborn child is confined in a hospital
- The buying of:
  - An electric breast pump (non-hospital grade, cost is covered by your plan once every 3 years) or
  - A manual breast pump (cost is covered by your plan once per pregnancy)

If an electric breast pump was purchased within the previous 3 year period, the purchase of another electric breast pump will not be covered until a 3 year period has elapsed since the last purchase.

Breast pump supplies and accessories

Eligible health services include breast pump supplies and accessories. These are limited to only one purchase per pregnancy in any year where a covered female would not qualify for the purchase of a new pump.

Coverage for the purchase of breast pump equipment is limited to one item of equipment, for the same or similar purpose. Including the accessories and supplies needed to operate the item. You are responsible for the entire cost of any additional pieces of the same or similar equipment you purchase or rent for personal convenience or mobility.
Family planning services—contraceptives counseling, devices and voluntary sterilization

Eligible health services include family planning services such as:

**Counseling services**

Eligible health services include counseling services provided by a **physician** OB, GYN, or OB/GYN on contraceptive methods. These will be covered when you get them in either a group or individual setting.

**Contraceptives**

Eligible health services include contraceptive **prescription drugs** and devices (including any related services or supplies) when they are provided by, administered, or removed by a **physician** during an office visit.

**Voluntary sterilization**

Eligible health services include charges billed separately by the **provider** for female voluntary sterilization procedures and related services and supplies. This also could include tubal ligation and sterilization implants.

**Important note:**

See the following sections for more information:

- Family planning services - other
- Maternity care
- Well newborn nursery care
- Treatment of basic infertility
- Outpatient prescription drugs
2. Physicians and other health professionals

Physician and specialist services (non-surgical and non-preventive)

Eligible health services include services by your physician to treat an illness or injury such as radiological supplies, services and tests. You can get those services:
- At the physician’s or specialist’s office
- In your home
- From any other inpatient or outpatient facility
- By way of telemedicine or telehealth

Allergy testing and treatment

Eligible health services include the services and supplies that your physician or specialist may provide for:
- Allergy testing

Physician and specialist – surgical services

Eligible health services include the services of:
- The surgeon who performs your surgery while you are confined in a hospital or birthing center
- Your surgeon who you visit before and after the surgery

When your surgery requires two or more surgical procedures:
- Using the same approach and at the same time or
- Right after each other

we will pay for the one that costs the most.

Your surgeon may perform two or more surgical or bilateral procedures on your during one operation but in separate operative fields. When this happens, we will pay:
- 100% of the surgery for the primary procedures
- 50% of the surgery for the secondary procedure
- 25% of the surgery for each of the other procedures, if any

If the surgeon performs both the surgical procedure and the anesthesia service, we will reduce the benefit that the plan pays for anesthesia by 50%.

Coverage includes eligible health services provided by a licensed mid-wife.

Anesthetist

Covered benefits for your surgery include the services of an anesthetist who is not employed or retained by the hospital where the surgery is performed.

Surgical assistant

Covered benefits for your surgery include the services of a surgical assistant. A “surgical assistant” is a health professional trained to assist in surgery and during the periods before and after surgery. A surgical assistant is under the supervision of a physician.
Physician and specialist – outpatient surgical services
Eligible health services include the services of:
- The surgeon who performs your surgery in the outpatient department of a hospital or surgery center
- Your surgeon who you visit before and after the surgery

Covered benefits include hospital or surgery center services provided within 24 hours of the surgical procedure.

Anesthetist
Covered benefits for your surgery include the services of an anesthetist who is not employed or retained by the hospital or surgery center where the surgery is performed.

Surgical assistant
Covered benefits for your surgery include the services of a surgical assistant. A “surgical assistant” is a health professional trained to assist in surgery and during the periods before and after surgery. A surgical assistant is under the supervision of a physician.

In-hospital non-surgical physician services
During your stay in a hospital for surgery, eligible health services include the services of physician employed by the hospital to treat you. The physician does not have to be the one who performed the surgery.

Consultant services (non-surgical and non-preventive)
Eligible health services include the services of a consultant to confirm a diagnosis made by your physician or to determine a diagnosis. Your physician or specialist must make the request for the consultant or specialist services.

Covered benefits include treatment by the consultant.

The consultation may happen by way of telemedicine.

Second surgical opinion
Eligible health services include a second surgical opinion by a specialist to confirm your need for a surgery. The specialist must be board-certified in the medical field for the surgery that is being proposed by your physician.

Covered benefits include diagnostic lab work and radiological services ordered by the specialist.

We must receive a written report from a specialist on the second surgical opinion.
3. Hospital and other facility care

Hospital care

Eligible health services include inpatient and outpatient hospital care.

The types of hospital care services that are eligible for coverage include:
- Room and board charges up to the hospital’s semi-private room rate.
- Services of health professionals employed by the hospital.
- Operating and recovery rooms.
- Intensive care units of a hospital.
- Administration of blood and blood derivatives, including the cost of the blood or blood product.
- Radiation therapy.
- Inhalation therapy.
- Cognitive rehabilitation.
- Speech therapy, physical therapy and occupational therapy.
- Oxygen and oxygen therapy.
- Radiological services, laboratory testing and diagnostic services.
- Medications.
- Intravenous (IV) preparations.
- Discharge planning.
- Services and supplies provided by the outpatient department of a hospital.

Preadmission testing

Eligible health services include pre-admission testing on an outpatient basis before a scheduled surgery.

For your preadmission testing to be eligible for coverage, the following conditions must be met:
- The testing is related to the scheduled surgery.
- The testing is done within the 7 days before the scheduled surgery and
- The testing is not repeated in, or by, the hospital or surgery center where the surgery is done.

Anesthesia and related facility charges for oral surgery or a dental procedure

Eligible health services include:
- General anesthesia.
- Charges made by an anesthetist.
- Related hospital or surgery center charges.

for your oral surgery or dental procedure.

Your physician will also tell us you:
- Have a physical, mental, or medical condition that requires you be treated in a hospital or surgery center
- Are developmentally disabled
- Are in poor health and have a medical need for general anesthesia

All other non-facility charges are covered under the Pediatric dental care section if you are eligible for that coverage.
Alternatives to hospital stays

Outpatient surgery (facility charges)

Eligible health services include services provided and supplies used in connection with outpatient surgery performed in a surgery center or a hospital’s outpatient department.

Eligible health services also include the following oral surgery services:

- Removal of tumors, cysts, all malignant and premalignant lesions and growths of the jaws, cheeks, lips, tongue, roof and floor of the mouth
- Incision and drainage of facial abscess
- Surgical procedures involving salivary glands and ducts and non-dental related procedures of the accessory sinuses
- Removal of complete bony impacted teeth

Important note:
Some surgeries can be done safely in a physician’s office. For those surgeries, your plan will pay only for physician services and not a separate facility fee.

Home health care

Eligible health services include home health care services provided by a home health care agency in the home, but only when all of the following criteria are met:

- You are homebound
- Your physician orders them
- The services take the place of your needing to stay in a hospital or a skilled nursing facility, or needing to receive the same services outside your home
- The services are part of a home health care plan
- The services are skilled nursing services, home health aide services or medical social services, furnishing of medical equipment and supplies (other than drugs or medicines) or are short-term speech, physical, respiratory or occupational therapy
- Home health aide services are provided under the supervision of a registered nurse
- Medical social services are provided by or supervised by a physician or social worker

Short-term physical, speech and occupational therapy provided in the home are subject to the conditions and limitations imposed on therapy provided outside the home. See the Short-term rehabilitation services and Habilitation therapy services sections and the schedule of benefits.

Home health care services do not include custodial care.
Hospice care

Eligible health services include inpatient and outpatient hospice care when given as part of a hospice care program because your physician diagnoses you with a terminal illness.

The types of hospice care services that are eligible for coverage include:

- Room and board
- Services and supplies furnished to you on an inpatient or outpatient basis
- Services by a hospice care agency or hospice care provided in a hospital
- Part-time or intermittent nursing care by a R.N. or L.P.N. for up to eight hours a day
- Part-time or intermittent home health aide services to care for you up to eight hours a day
- Medical social services under the direction of a physician such as:
  - Assessment of your social, emotional and medical needs, and your home and family situation
  - Identification of available community resources
  - Assistance provided to you to obtain resources to meet your assessed needs
- Bereavement counseling
- Respite care

Hospice care services provided by the providers below may be covered, even if the providers are not an employee of the hospice care agency responsible for your care:

- A physician for consultation or case management
- A physical, speech, respiratory or occupational therapist
- A home health care agency for:
  - Physical and occupational therapy
  - Medical supplies
  - Outpatient prescription drugs
  - Psychological counseling
  - Dietary counseling

Skilled nursing facility

Eligible health services include inpatient skilled nursing facility care.

The types of skilled nursing facility care services that are eligible for coverage include:

- Room and board, up to the semi-private room rate
- Services and supplies that are provided during your stay in a skilled nursing facility

For your stay in a skilled nursing facility to be eligible for coverage, the following conditions must be met:

- The skilled nursing facility admission will take the place of:
  - An admission to a hospital or sub-acute facility or
  - A continued stay in a hospital or sub-acute facility.
- There is a reasonable expectation that your condition will improve enough to go home within a reasonable amount of time
- The illness or injury is severe enough to require constant or frequent skilled nursing care on a 24-hour basis
4. Emergency services and urgent care
Eligible health services include services and supplies for the treatment of an emergency medical condition or an urgent condition.

The types of services that are eligible for coverage include:

- A medical screening examination or other evaluation, required by state or federal law and provided to you in a hospital emergency facility or comparable facility, necessary to determine if an emergency medical condition exists
- Treatment to stabilize your condition
- Care in an emergency facility or comparable facility after you become stable. But only if the treating provider asks us and we approve the service. We will approve or deny the request within an hour after receiving the request

As always, you can get emergency services from in-network providers. However, you can also get emergency services from out-of-network providers. When you are treated by an out-of-network provider when an in-network provider is not reasonably available or for an emergency medical condition, we will reimburse the out-of-network provider at the usual and customary charge. Please contact Member Services if you receive a bill from the out-of-network provider. We will work to resolve the outstanding balance so that all you pay is the appropriate network deductible, coinsurance, or copayments under your plan.

The in-network coverage cost-sharing for emergency services and urgent care from out-of-network providers ends when Aetna and the attending physician determine that you are medically able to travel or to be transported to an in-network provider if you need more care.

You will be credited for:

- Any amounts due to you that would have been paid if the provider were an in-network provider
- Any out-of-pocket amounts that you paid to the provider, in excess of the allowed amount. Such amounts will be credited to your calendar year deductible amount and plan coinsurance limits, as applicable

For follow-up care, you are covered when:

- Your in-network physician provides the care.
- You use an out-of-network provider to provide the care. If you use an out-of-network provider to receive follow-up care, you may be subject to a higher out-of-pocket expense.

In case of a medical emergency
When you experience an emergency medical condition, you should go to the nearest emergency room. You can also dial 911 or your local emergency response service for medical and ambulance assistance. If possible, call your physician but only if a delay will not harm your health.

Non-emergency condition
If you go to an emergency room for what is not an emergency medical condition, the plan will not cover your expenses. See the schedule of benefits and the Emergency services and urgent care and Preauthorization covered benefit penalty sections for specific plan details.
In case of an urgent condition

Urgent condition
If you need care for an urgent condition, you should first seek care through your physician or school health services. If your physician or school health services is not reasonably available to provide services, you may access urgent care from an urgent care facility.

Non-urgent care
If you go to an urgent care facility for what is not an urgent condition, the plan may not cover your expenses. See the Emergency services and urgent care and Preauthorization covered benefit penalty sections in the schedule of benefits for specific plan details.

Examples of non-urgent care are:
- Routine or preventive care (this includes immunizations)
- Follow-up care
- Physical therapy
- Elective treatment
- Any diagnostic lab work and radiological services which are not related to the treatment of the urgent condition
5. Pediatric dental care

Eligible health services include dental services and supplies provided by a contracting or non-contracting dental provider.

The eligible health services are those listed in the Pediatric dental care section of the schedule of benefits. We have grouped them as Type A, B and C, and orthodontic treatment services.

Dental emergencies

Eligible health services also include dental services provided for a dental emergency. The care provided must be a covered benefit.

If you have a dental emergency, you should consider calling your dental contracting dental provider who may be more familiar with your dental needs. However, you can get treatment from any dentist including one that is a non-contracting dental provider. If you need help in finding a dentist, call Member Services at the toll-free number on your ID card.

If you get treatment from an out-of-network provider for a dental emergency, the plan pays a benefit at the in-network cost-sharing level of coverage.

non-contracting dental provider For follow-up care to treat the dental emergency, you should consider using your contracting dental provider so that you can get the maximum level of benefits. Follow-up care will be paid at the cost-sharing level that applies to the type of provider that gives you the care.

What rules and limits apply to dental care?

Several rules apply to the dental benefits. Following these rules will help you use the plan to your advantage by avoiding expenses that are not covered by the plan.

When does your plan cover orthodontic treatment?

Orthodontic treatment is covered if you have a severe, dysfunctional, disabling condition, such as:

- Cleft lip and palate, cleft palate, or cleft lip with alveolar process involvement
- The following craniofacial anomalies:
  - Hemifacial microsomia
  - Craniosynostosis syndromes
  - Cleidocranial dental dysplasia
  - Arthrogryposis
  - Marfan syndrome
- Anomalies of facial bones and/or oral structures
- Facial trauma resulting in functional difficulties

If you suffer from one of these conditions, the orthodontic services that are eligible for coverage include:

- Pre-orthodontic treatment visit
- Comprehensive orthodontic treatment
- Orthodontic retention (removal of appliances, construction and placement of retainers(s)
When does your plan cover replacements?
The plan’s “replacement rule” applies to:
- Crowns
- inlays
- onlays
- veneers
- complete dentures
- removable partial dentures
- fixed partial dentures (bridges)
- other prosthetic services

The “replacement rule” is that certain replacements of, or additions to, these dental services are covered only when:
- You had a tooth (or teeth) extracted after the existing denture or bridge was installed. As a result, you need to replace or add teeth to your denture or bridge.
- The present crown, inlay, onlay and veneer, complete denture, removable partial denture, fixed partial denture (bridge), or other prosthetic service was installed at least 5 years before its replacement and cannot be fixed.
- You had a tooth (or teeth) extracted. Your present denture is an immediate temporary one that replaces that tooth (or teeth). A permanent denture is needed, and the temporary denture cannot be used as a permanent denture. Replacement must occur within 12 months from the date that the temporary denture was installed.

Getting an advance claim review
This only applies to out-of-network coverage. The purpose of the advance claim review is to determine, in advance, what we will pay for proposed services. Knowing ahead of time which services are covered and the benefit amount payable helps you and your dental provider make informed decisions about the care you are considering.

Important note:
The advance claim review is not a guarantee of coverage and payment, but rather an estimate of the amount or scope of benefits to be paid.

When to get an advance claim review
An advance claim review is recommended whenever a course of dental treatment is likely to cost more than $350. Here are the steps to get an advance claim review:
1. Ask your dental provider to write down a full description of the treatment you need, using either an Aetna claim form or an American Dental Association (ADA) approved claim form
2. Before treating you, your dental provider should send the form to us
3. We may request supporting images and other diagnostic record.
4. Once all of the information has been gathered, we will review the proposed treatment plan and provide you and your dental provider with a statement outlining the benefits payable
5. You and your dental provider can then decide how to proceed

The advance claim review is voluntary. It is not necessary for emergency treatment or routine care such as cleaning teeth or check-ups.

In determining the amount of benefits payable, we will take into account alternate procedures, services, or courses of dental treatment for the dental condition in question in order to accomplish the anticipated result. See the When does your plan cover other treatment? section below.
What is a course of dental treatment?
A course of dental treatment is a planned program of one or more services or supplies. The services or supplies are provided by one or more dentists to treat a dental condition that was diagnosed by the attending dentist during an oral examination. A course of treatment starts on the date your dentist first renders a service to correct or treat the diagnosed dental condition.

When does your plan cover other treatment?
Sometimes there are several ways to treat a dental problem, all of which provide acceptable results.

If a charge is made for a non-eligible health service and an eligible health service would provide an acceptable result, then your plan will pay a benefit for the eligible health service.

When alternate services or supplies can be used, the plan's coverage will be limited to the expense of the least expensive service or supply that is:
- Customarily used nationwide for treatment
- Deemed by the dental profession to be appropriate for treatment of the condition in question. The service or supply must meet broadly accepted standards of dental practice, taking into account your current oral condition

You should review the differences in the expense of alternate treatment with your dental provider. Of course, you and your dental provider can still choose the more expensive treatment method. You are responsible for any charges in excess of what the plan will cover.
6. Specific conditions

**Birthing center**

*Eligible health services* include prenatal (non-preventive care) and postpartum care and obstetrical services from your *provider*. A *provider* includes, but is not limited to, a licensed mid-wife.

After your child is born, *eligible health services* include:

- 48 hours of care in a *birthing center* after an uncomplicated vaginal delivery
- 96 hours of care in a birthing center after an uncomplicated cesarean delivery
- A shorter *stay* if the attending *physician*, with the consent of the mother, discharges the mother or newborn earlier
- The mother could be discharged earlier. If so, the plan will pay for 1 post-delivery home visits by a health care *provider*

These time frames apply if your child is born without any problem. If your *provider* tells us that you had a problem during your pregnancy or during childbirth, we will cover the *stay* the same as we would for any other illness or injury.

*Eligible health services* also include charges made by:

- An operating *physician* for:
  - Delivery
  - Pre- and post-natal care

A birthing center is a facility specifically licensed as a freestanding birthing center by applicable state and federal laws to provide prenatal care, delivery and immediate postpartum care.

Refer to the *Eligible health services under your plan-Maternity care and Well newborn nursery care* sections for more information.

**Diabetic services and supplies (including equipment and training)**

*Eligible health services* include:

- Services and supplies
  - Foot care to minimize the risk of infection
  - Insulin and insulin analog preparations
  - Hypodermic needles and syringes used for the treatment of diabetes
  - Injection aids, including devices used to assist with insulin injection and needleless systems
  - Diabetic test agents, including, but not limited to, visual reading and urine test strips and tablets
  - Lancets/lancing devices
  - Prescribed oral medications whose primary purpose is to influence blood sugar
  - Non-prescription medications for the purpose of controlling blood sugar
  - Alcohol swabs
  - Injectable glucagons
  - Glucagon emergency kits

- Biohazard disposal containers equipment
  - External and implantable insulin pumps and pump supplies
• Repairs and necessary maintenance of insulin pumps if not covered by manufacturer’s warranty or purchase agreement
  - Rental fees for pumps during repair and maintenance Blood glucose meters without special features, unless required due to blindness
• Podiatric appliances, including therapeutic shoes to prevent complications of diabetes Training
  - Self-management training provided by a health care provider certified in diabetes self-management training. We will also cover training for a person who cares for you, if a provider sends a written order.

“Self-management training” is a day care program of educational services and self-care designed to instruct you in the self-management of diabetes (including medical nutritional therapy). The program must be under the supervision of a health professional whose scope of practice includes diabetic education or management.

See your pharmacy plan benefits for coverage of blood glucose meters and external insulin pumps.

Eligible health services also include new or improved diabetic treatment, equipment and supplies that become available. They must be:
• Approved by the United States Food and Drug Administration
• Prescribed by your provider
  • Sent to us in writing by your provider

This coverage includes the treatment of insulin (type I) and non-insulin dependent (type II) diabetes and the treatment of elevated blood glucose levels during pregnancy.

Family planning services — other
Eligible health services include certain family planning services provided by your physician such as:
• Voluntary sterilization for males

Temporomandibular joint dysfunction treatment (TMJ) and craniomandibular joint dysfunction treatment (CMJ)
Eligible health services include the:
• Diagnostic or therapeutic services including treatment of associated myofascial pain
• Medical and dental surgical treatment
• Medical and dental non-surgical treatment including prosthesis placed directly on the teeth for TMJ and CMJ) by a provider.

Impacted wisdom teeth
Eligible health services include the services and supplies of a dental provider for the removal of one or more impacted wisdom teeth.

Accidental injury to sound natural teeth
Eligible health services include the services and supplies of a dental provider to treat an injury to sound natural teeth.
**Dermatological treatment**

*Eligible health services* include the diagnosis and treatment of skin disorders by a *physician or specialist*.

For coverage of lab work, radiological services and surgery, see the *Outpatient diagnostic testing* and *Physician and specialist surgical services* sections.

**Maternity care**

*Eligible health services* include prenatal (non-preventive care), delivery, postpartum care, and other obstetrical services, and postnatal visits. Coverage includes *eligible health services* provided by a licensed mid-wife.

After your child is born, *eligible health services* include:

- Not less than 48 hours of inpatient care in a health care facility after an uncomplicated vaginal delivery
- Not less than 96 hours of inpatient care in a health care facility after an uncomplicated cesarean delivery
- A shorter *stay* if the attending *physician*, with the consent of the mother, discharges the mother or newborn earlier
- If you and your *physician* agree to a shorter *stay*, you and your newborn will receive timely post-delivery care. A physician, registered nurse, or other licensed health care *provider* can provide post-delivery care. You can choose to get the post-delivery care in:
  - Your home
  - A health care *provider’s* office
  - A health care facility
  - Another location determined to be appropriate under applicable Texas law

We will cover congenital defects for a newborn the same as we would for any other *illness* or *injury*.

**Well newborn nursery care**

*Eligible health services* include routine care of your well newborn child in a *hospital* such as:

- Well newborn nursery care during the mother’s *stay* but for not more than four days for a normal delivery
- *Hospital* visits and consultations for the well newborn by a *physician* but for not more than 1 visit per day

**Pregnancy complications**

*Eligible health services* include services and supplies from your *provider* for pregnancy complications.

Pregnancy complications means problems caused by pregnancy that pose a significant threat to the health of the mother or baby, including:

- Hyperemesis gravidarum (pernicious vomiting of pregnancy); toxemia with convulsions; severe bleeding before delivery due to premature separation of the placenta from any cause; bleeding after delivery severe enough to need a transfusion or blood
- Acute nephritis, nephrosis, cardiac decompensation, missed abortion, and similar medical and surgical conditions of comparable severity
- Amniotic fluid tests, analyses, or intrauterine fetal transfusion made for Rh incompatibility
- An emergency medical cesarean section due to pregnancy complications
- Miscarriage if not elective or therapeutic

We will cover pregnancy complications the same as we would for any other *illness* or *injury*. 
Autism spectrum disorder
Autism spectrum disorder means a neurobiological disorder that includes autism, Asperger’s syndrome, or pervasive development disorder – not otherwise specified.

Eligible health services include the “generally recognized services” provided by a physician or behavioral health provider for the diagnosis and treatment of autism spectrum disorder.

Treatment for autism spectrum disorder is covered from the date of diagnosis.

We will only cover this treatment if a physician or behavioral health provider orders it as part of a treatment plan. You can receive treatment from a provider that meets at least one of the following criteria:
- Is licensed, certified or registered by an appropriate agency of Texas
- Has professional credentials that are recognized and accepted by an appropriate agency of the United States
- Is certified as a provider under the TRICARE military health system

You can also receive treatment from someone working under the supervision of a provider as described above.

As used here, “generally recognized services” can include:
- Evaluation and assessment services
- Applied behavior analysis
- Behavior training and behavior management
- Speech therapy
- Occupational therapy
- Physical therapy
- Medications or nutritional supplements used to address symptoms of autism spectrum disorder

Important note:
As a reminder, applied behavior analysis requires preauthorization by Aetna. Your in-network provider is responsible for obtaining preauthorization. You are responsible for obtaining preauthorization when you use an out-of-network provider.

Mental health treatment
Eligible health services include the treatment of mental disorders provided by a general medical hospital, psychiatric hospital, residential treatment facility, physician, or behavioral health provider as follows:
- Inpatient room and board at the semi-private room rate, and other services and supplies related to your condition that are provided during your stay in a general medical hospital, psychiatric hospital, crisis stabilization unit or residential treatment facility.

A general medical hospital is not usually equipped to treat mental disorders. Once it has stabilized your condition, it will either:
- Admit you to its separate psychiatric section or unit or
- Transfer you to a psychiatric hospital or residential treatment facility

If the general medical hospital cannot transfer you to a psychiatric hospital or residential treatment facility or to its own separate psychiatric section or unit, then we will cover any eligible health services provided by the general medical hospital for the treatment of a mental disorder.
• Outpatient treatment received while not confined as an inpatient in a general medical hospital, psychiatric hospital, or residential treatment facility, including:
  - Office visits to a physician or behavioral health provider such as a psychiatrist, psychologist, social worker, or licensed professional counselor (includes telemedicine and telehealth consultations)
  - Individual, group and family therapies for the treatment of mental health
  - Other outpatient mental health treatment such as:
    - Partial hospitalization treatment provided in a facility or program for mental health treatment provided under the direction of a physician
    - Intensive outpatient program provided in a facility or program for mental health treatment provided under the direction of a physician
    - Skilled behavioral health services provided in the home, but only when all of the following criteria are met:
      ▪ You are homebound
      ▪ Your physician orders them
      ▪ The services take the place of a stay in a hospital or a residential treatment facility, or you are unable to receive the same services outside your home
      ▪ The skilled behavioral health care is appropriate for the active treatment of a condition, illness or disease to avoid placing you at risk for serious complications
    - Electro-convulsive therapy (ECT)
    - Mental health injectables
    - Transcranial magnetic stimulation (TMS)
    - Psychological testing
    - Neuropsychological testing
    - 23 hour observation

Substance abuse related disorders treatment

Eligible health services include the treatment of substance abuse provided by a general medical hospital, psychiatric hospital, residential treatment facility, physician, or behavioral health provider as follows:
  • Inpatient room and board at the semi-private room rate and other services and supplies that are provided during your stay in a general medical hospital, psychiatric hospital or residential treatment facility.

A general medical hospital is not usually equipped to treat substance abuse. Once a general medical hospital has stabilized your condition, it will either:
  - Admit you to its separate substance abuse section or unit
  - Transfer you to a psychiatric hospital or residential treatment facility

If the general medical hospital cannot transfer you to a psychiatric hospital or residential treatment facility or to its own separate psychiatric section or unit, then we will cover any eligible health services provided by the general medical hospital for the treatment of substance abuse.

As used here, “medical complications” mean conditions such as electrolyte imbalances, malnutrition, cirrhosis of the liver, delirium tremens and hepatitis.
• Outpatient treatment received while not confined as an inpatient in a general medical hospital, psychiatric hospital or residential treatment facility, including:
  - Office visits to a physician or behavioral health provider such as a psychiatrist, psychologist, social worker, or licensed professional counselor (includes telemedicine and telehealth consultations)
  - Individual, group and family therapies for the treatment of substance abuse
  - Other outpatient substance abuse treatment such as:
    - Outpatient detoxification
    - Partial hospitalization treatment provided in a facility or program for treatment of substance abuse provided under the direction of a physician
    - Intensive outpatient program provided in a facility or program for treatment of substance abuse provided under the direction of a physician
    - Ambulatory detoxification which are outpatient services that monitor withdrawal from alcohol or other substance abuse, including administration of medications
    - Skilled behavioral health services provided in the home, but only when all of the following criteria are met:
      ▪ You are homebound
      ▪ Your physician orders them
      ▪ The services take the place of a stay in a hospital or a residential treatment facility, or you are unable to receive the same services outside your home
      ▪ The skilled behavioral health care is appropriate for the active treatment of a condition, illness or disease to avoid placing you at risk for serious complications
    - Treatment of withdrawal symptoms
    - Substance use disorder injectables
    - 23 hour observation

Oral and maxillofacial treatment (mouth, jaws and teeth)
Eligible health services include the following oral and maxillofacial treatment (mouth, jaws and teeth) provided by a physician, a dental provider and hospital:
• Non-surgical treatment of infections or illness.
  - Surgery needed to:
    - Treat a fracture, dislocation, or wound.
    - Cut out teeth partly or completely impacted in the bone of the jaw, teeth that will not erupt through the gum, other teeth that cannot be removed without cutting into bone, the roots of a tooth without removing the entire tooth, cysts, tumors, or other diseased tissues.
    - Cut into gums and tissues of the mouth. This is only covered when not done in connection with the removal, replacement or repair of teeth.
    - Alter the jaw, jaw joints, or bite relationships by a cutting procedure when appliance therapy alone cannot result in functional improvement.
• Hospital services and supplies received for a stay required because of your condition.
  - Dental work, surgery and orthodontic treatment needed to remove, repair, restore or reposition:
  - Natural teeth damaged, lost, or removed. Your teeth must be free from decay or in good repair, and are firmly attached to your jaw bone at the time of your injury.
  - Other body tissues of the mouth fractured or cut due to injury.
• Crowns, dentures, bridges, or in-mouth appliances only for:
  - The first denture or fixed bridgework to replace lost teeth.
  - The first crown needed to repair each damaged tooth.
  - An in-mouth appliance used in the first course of orthodontic treatment after an injury.
• **Accidental injuries** and other trauma. Oral surgery and related dental services to return **sound natural teeth** to their pre-trauma functional state. **Sound natural teeth** are teeth that were stable, functional, and free from decay and advanced periodontal disease at the time of the trauma.

• Removal of tumors and cysts requiring pathological examination.

• Fluoride treatment, removal of teeth and hyperbaric oxygen therapy in connection with covered radiation therapy.

• Oral surgery and related dental services to correct a gross anatomical defect present at birth that results in significant functional impairment of a body part, if the services or supplies will improve function.
  - Related dental services are limited to:
    - The first placement of a permanent crown or cap to repair a broken tooth
    - The first placement of dentures or bridgework to replace lost teeth
    - Orthodontic therapy to reposition teeth

**Reconstructive surgery and supplies**

*Eligible health services* include all stages of reconstructive surgery by your provider and related supplies provided in an inpatient or outpatient setting only in the following circumstances:

• Your surgery reconstructs the breast where a necessary mastectomy was performed. Services and supplies include:
  - An implant.
  - Areolar and nipple reconstruction.
  - Areolar and nipple re-pigmentation.
  - Surgery on a healthy breast to make it symmetrical with the reconstructed breast
  - Treatment of physical complications of all stages of the mastectomy, including lymphedema and prosthetic devices.

• Unless you or your physician decides that a shorter time period for inpatient care is appropriate, *eligible health services* for reconstructive breast surgery include:
  - 48 hours of inpatient care following a mastectomy
  - 24 hours of inpatient care in an in-network health care facility after a lymph node dissection for treatment of breast cancer

• Your surgery is to implant or attach a covered prosthetic device.

• Your surgery corrects a gross anatomical defect present at birth. The surgery will be covered if:
  - The defect results in severe facial disfigurement or major functional impairment of a body part.
  - The purpose of the surgery is to improve function.

• Your surgery is needed because treatment of your illness resulted in severe facial disfigurement or major functional impairment of a body part, and your surgery will improve function.

• Your surgery corrects a craniofacial abnormality defect. This includes the abnormality that is caused by a congenital defect, developmental deformity, trauma or illness. The purpose of the surgery is to:
  - Improve function
  - Attempt to create a normal appearance
Transplant services
Organ transplants
Eligible health services include organ transplant services provided by a physician and hospital.

Organ means:
- Solid organ
- Hematopoietic stem cell
- Bone marrow

Aetna’s network of transplant specialist facilities
When you get transplant services from an in-network provider, the amount you will pay for covered transplant services is determined by where you get the in-network transplant services.

You can choose in-network transplant services from either:
- An Institutes of Excellence™ (IOE) facility we designate to perform the transplant you need or
- A Non-IOE facility

The National Medical Excellence Program® will coordinate all solid organ and bone marrow transplants and other specialized care you need.

Travel and lodging expenses
If you live 100 or more miles from the facility that will provide your transplant, eligible health services include travel and lodging expenses for you and a companion to travel between your home and the facility. Eligible health services will be reimbursed by the plan and include coach class round-trip air, train, or bus travel and lodging costs.

You will not be reimbursed unless we have approved you for this program before you incur the costs.

Your approval notification for this program will describe the process to follow for reimbursement. You must send us the receipts of your expenses.

For details about this program, contact Member Services at the toll-free number on your ID card.

Treatment of infertility
Basic infertility
Eligible health services include seeing a physician or infertility specialist:
- To diagnose and evaluate the underlying medical cause of infertility.
- To do surgery to treat the underlying medical cause of infertility. Examples are endometriosis surgery or, for men, varicocele surgery.
7. Specific therapies and tests

Outpatient diagnostic testing

Diagnostic complex imaging services
Eligible health services include complex imaging services by a provider, including:

- Computed tomography (CT) scans
- Magnetic resonance imaging (MRI) including Magnetic resonance spectroscopy (MRS), Magnetic resonance venography (MRV) and Magnetic resonance angiogram (MRA)
- Nuclear medicine imaging including positron emission tomography (PET) scans

Diagnostic lab work and radiological services
Eligible health services include diagnostic radiological services (other than diagnostic complex imaging), lab services, and pathology and other tests.

Cardiovascular disease testing
Eligible health services include certain lab tests for the early detection of cardiovascular disease when you have:

- Diabetes, or
- An intermediate or higher risk of getting coronary heart disease based on the Framingham Heart Study prediction algorithms

The following lab tests may be done to screen for hardening and abnormal artery structure and function:

- Computed tomography (CT) scanning
- Ultrasonography

Chemotherapy
Eligible health services for chemotherapy depend on where treatment is received. In most cases, chemotherapy is covered as outpatient care. However, your hospital benefit covers the initial dose of chemotherapy after a cancer diagnosis during a hospital stay. Covered benefits for chemotherapy include anti-nausea prescription drugs.

Eligible health services also include oral anti-cancer prescription drugs for chemotherapy. Coverage for oral anti-cancer prescription drugs will not be less favorable than for intravenously or injected anti-cancer medications covered as a medical benefit rather than as a prescription drug benefit. Also, the cost-sharing for anti-cancer prescription drugs will not exceed the coinsurance or copayment applicable to a chemotherapy visit or cancer treatment visit. Your prescriber or your pharmacist may need to get approval from us before we will agree to cover the drug for you. See the Preauthorization section for details.

Outpatient infusion therapy
Eligible health services include infusion therapy you receive in an outpatient setting including but not limited to:

- A free-standing outpatient facility
- The outpatient department of a hospital
- A physician in their office
- A home care provider in your home

You can access the list of preferred infusion locations by contacting Member Services at the toll-free number on your ID card or by logging onto your Aetna Navigator® secure website at www.aetnastudenthealth.com.

Infusion therapy is the parenteral (e.g. intravenous) administration of prescribed medications or solutions.
Certain infused medications may be covered under the outpatient prescription drug coverage. You can access the list of specialty prescription drugs by contacting Member Services at the toll-free number on your ID card or by logging onto your Aetna Navigator® secure website at www.aetnastudenthealth.com to determine if coverage is under the outpatient prescription drug benefit or this certificate.

When Infusion therapy services and supplies are provided in your home, they will not count toward any applicable home health care maximums.

**Outpatient radiation therapy**

**Eligible health services** include the following radiology services provided by a health professional:

- Radiological services
- Gamma ray
- Accelerated particles
- Mesons
- Neutrons
- Radium
- Radioactive isotopes

**Specialty prescription drugs**

**Eligible health services** include specialty prescription drugs when they are:

- Purchased by your provider
- Injected or infused by your provider in an outpatient setting such as:
  - A free-standing outpatient facility
  - The outpatient department of a hospital
  - A physician in his/her office
  - A home care provider in your home
- Listed on our specialty prescription drug list as covered under this certificate of coverage

You can access the list of specialty prescription drugs by contacting Member Services at the toll-free number on your ID card or by logging onto your Aetna Navigator® secure website at www.aetnastudenthealth.com to determine if coverage is under the outpatient prescription drug benefit of this certificate of coverage.

**Outpatient respiratory therapy**

**Eligible health services** include outpatient respiratory therapy services you receive at a hospital, skilled nursing facility or physician’s office but only if those services are part of a treatment plan determined by your risk level and ordered by your physician.

**Transfusion or kidney dialysis of blood**

**Eligible health services** include services and supplies for the transfusion or kidney dialysis of blood. **Covered benefits** include:

- Whole blood
- Blood components
- The administration of whole blood and blood components

**Short-term cardiac and pulmonary rehabilitation services**

**Eligible health services** include the cardiac and pulmonary rehabilitation services listed below.

**Cardiac rehabilitation**

**Eligible health services** include cardiac rehabilitation services you receive at a hospital, skilled nursing facility or physician’s office, but only if those services are part of a treatment plan determined by your risk level and ordered by your physician.
Pulmonary rehabilitation

Eligible health services include pulmonary rehabilitation services as part of your inpatient hospital stay if it is part of a treatment plan ordered by your physician.

A course of outpatient pulmonary rehabilitation may also be eligible for coverage if it is performed at a hospital, skilled nursing facility, or physician’s office, is used to treat reversible pulmonary disease states, and is part of a treatment plan ordered by your physician.

Short-term rehabilitation and habilitation therapy services

Short-term rehabilitation therapy services
Short-term rehabilitation therapy services help you restore or develop skills and functioning for daily living.

Eligible health services include short-term rehabilitation therapy services your physician prescribes. The services have to be performed by:

- A licensed or certified physical, occupational or speech therapist
- A hospital, skilled nursing facility, or hospice facility
- A home health care agency
- A physician

Short-term rehabilitation therapy services have to follow a specific treatment plan, ordered by your physician.

Outpatient cognitive rehabilitation, physical, occupational, and speech therapy

Eligible health services include:

- Physical therapy, but only if it is expected to significantly improve or restore physical functions lost as a result of an acute illness, injury or surgical procedure
- Occupational therapy (except for vocational rehabilitation or employment counseling), but only if it is expected to:
  - Significantly improve, develop or restore physical functions you lost as a result of an acute illness, injury or surgical procedure or
  - Relearn skills so you can significantly improve your ability to perform the activities of daily living on your own
- Speech therapy, but only if it is expected to:
  - Significantly improve or restore the speech function or correct a speech impairment as a result of an acute illness, injury or surgical procedure or
  - Improve delays in speech function development caused by a gross anatomical defect present at birth

Speech function is the ability to express thoughts, speak words and form sentences. Speech impairment is difficulty with expressing one’s thoughts with spoken words.

- Cognitive rehabilitation therapy associated with physical rehabilitation, but only when:
  - Your cognitive deficits are caused by neurologic impairment due to trauma, stroke, or encephalopathy
  - The therapy is coordinated with us as part of a treatment plan intended to restore previous cognitive function.
Inpatient and outpatient treatment for acquired brain injury

Eligible health services include treatment for an acquired brain injury. An acquired brain injury does not include a congenital or degenerative illness or injury. It means a neurological injury to the brain, after birth, that results in loss of:

- Physical function
- Sensory processing
- Cognition
- Psychosocial behavior

The therapy is coordinated with us as part of a treatment plan intended to:

- Maintain or restore previous cognitive function
- Slow further loss of function

Eligible health services include the following therapies related to an acquired brain injury:

- Cognitive rehabilitation therapy
- Cognitive communication therapy
- Neurocognitive therapy and rehabilitation
- Neurobehavioral, neurophysiological, neuropsychological, and psychophysiological testing or treatment
- Neurofeedback therapy
- Remediation
- Post-acute transition services
- Community reintegration services
- Post-acute care treatment due to, and related to, an acquired brain injury. If you have been unresponsive to treatment, this also includes checking from time to time to see if you become responsive

Eligible health services also include care in an assisted living facility that is:

- Within the scope of their license, and
- Within the scope of the services provided under and accredited rehabilitation program for brain injury

Short-term habilitation therapy services

Short-term habilitation therapy services are services that help you keep, learn, or improve skills and functioning for daily living (e.g. therapy for a child who isn’t walking or talking at the expected age).

Eligible health services include short-term habilitation therapy services your physician prescribes. The services have to be performed by:

- A licensed or certified physical, occupational or speech therapist
- A hospital, skilled nursing facility, or hospice facility
- A home health care agency
- A physician

Short-term habilitation therapy services have to follow a specific treatment plan, ordered by your physician.
Outpatient physical, occupational, and speech habilitation therapy

Eligible health services include:

- Physical therapy (except for services provided in an educational or training setting), if it is expected to develop any impaired function.
- Occupational therapy (except for vocational rehabilitation or employment counseling or services provided in an educational or training setting), if it is expected to develop any impaired function.
- Speech therapy (except for services provided in an educational or training setting or to teach sign language) is covered provided the therapy is expected to develop speech function as a result of delayed development. Speech function is the ability to express thoughts, speak words and form sentences.

Chiropractic services

Eligible health services include chiropractic services to correct a muscular or skeletal problem.

Your provider must establish or approve a treatment plan that details the treatment, and specifies frequency and duration.

Diagnostic testing for learning disabilities

Eligible health services include diagnostic testing for:

- Attention deficit disorder
- Attention deficit hyperactive disorder

Once you are diagnosed with one of these conditions, the treatment is covered under the Mental health treatment section.
8. **Other services**

**Acupuncture in lieu of anesthesia**

*Eligible health services* include acupuncture treatment (manual or electroacupuncture) provided by your physician, if the service is performed as a form of anesthesia in connection with a covered *surgical procedure*.

**Ambulance service**

*Eligible health services* include transport by professional *ambulance* services.

For *emergency services*:
- To the first *hospital* to provide *emergency services*
- From one *hospital* to another *hospital* if the first *hospital* cannot provide the *emergency services* you need

For non-*emergency services*:
- From a *hospital* to your home or to another facility if an *ambulance* is the only safe way to transport you
- From your home to a *hospital* if an *ambulance* is the only safe way to transport you. Transport is limited to 200 miles

Your plan also covers transportation to a *hospital* by professional air or water *ambulance* when:
- Professional ground *ambulance* transportation is not available
- Your condition is unstable, and requires medical supervision and rapid transport
- You are travelling from one *hospital* to another and
  - The first *hospital* cannot provide the *emergency services* you need
  - The two conditions above are met

**Clinical trial therapies (experimental or investigational)**

*Eligible health services* include *experimental or investigational* drugs, devices, treatments or procedures from a *provider* under an “approved clinical trial” only when you have cancer or *terminal illnesses* and all of the following conditions are met:
- Standard therapies have not been effective or are not appropriate
- Your *provider* determines, and we agree that, based on published, peer-reviewed scientific evidence that you may benefit from the treatment

An "approved clinical trial" is a clinical trial that meets all of these criteria:
- The FDA has approved the drug, device, treatment, or procedure to be investigated or has granted it investigational new drug (IND) or group c/treatment IND status. This requirement does not apply to procedures and treatments that do not require FDA approval.
- The clinical trial has been approved by an Institutional Review Board that will oversee the investigation.
- The clinical trial is sponsored by the National Cancer Institute (NCI) or similar federal organization.
- The trial conforms to standards of the NCI or other, applicable federal organization.
- The clinical trial takes place at an NCI-designated cancer center or takes place at more than one institution.
- You are treated in accordance with the protocols of that study.
Clinical trials (routine patient costs)

Eligible health services include "routine patient costs" incurred to you by a provider in connection with participation in a phase I, phase II, phase III or phase IV "approved clinical trial" as a “qualified individual” for the prevention, detection or treatment of cancer or other life-threatening illness or condition, as those terms are defined in the federal Public Health Service Act, Section 2709. An approved clinical trial must satisfy one of the following:

- Federally funded trials:
  - The study or investigation is approved or funded by one or more of the following:
    - The National Institutes of Health
    - The Centers for Disease Control and Prevention
    - The Agency for Health Care Research and Quality
    - The Centers for Medicare & Medicaid Services
    - Cooperative group or center of any of the entities described above or the Department of Defense or the Department of Veterans Affairs
    - A qualified non-governmental research entity identified in the guidelines issued by the National Institutes of Health for center support grants
    - The Department of Veterans Affairs
    - The Department of Defense
    - The Department of Energy
    - The Food and Drug Administration
  - An institutional review board of a Texas institution that has an agreement with the Office for Human Research Protections of the U.S. Department of Health and Human Services:

- The study or investigation is conducted under an investigational new drug application reviewed by the Food and Drug Administration

- The study or investigation is a drug trial that is exempt from having such an investigational new drug application

Durable medical equipment (DME)

Eligible health services include the expense of renting or buying DME and accessories you need to operate the item from a DME supplier. Your plan will cover either buying or renting the item, depending on which we think is more cost efficient. If you purchase DME, that purchase is only eligible for coverage if you need it for long-term use.

Coverage includes:

- One item of DME for the same or similar purpose.
- Repairing DME due to normal wear and tear. It does not cover repairs needed because of misuse or abuse.
- A new DME item you need because your physical condition has changed. It also covers buying a new DME item to replace one that was damaged due to normal wear and tear, if it would be cheaper than repairing it or renting a similar item.
- The fitting and adjustment of such DME items.

We:

- Assume no responsibility
- Make no express or implied warranties

concerning the outcome of any covered DME items.
We reserve the right to limit the payment of charges up to the most cost-efficient and least restrictive level of service or item that can be safely and effectively provided. It is our decision whether to rent or purchase the DME item.

Your plan only covers the same type of DME that Medicare covers. But there are some DME items Medicare covers that your plan does not. We list examples of those in the Exceptions section.

**Enteral formulas and nutritional supplements**

**Eligible health services** include enteral formulas and nutritional supplements used to treat malabsorption of food caused by:

- Crohn’s Disease
- Ulcerative colitis
- Gastroesophageal reflux
- Gastrointestinal motility;
- Chronic intestinal pseudoobstruction
- Eosinophilic gastrointestinal disorders
- Inherited diseases of amino acids and organic acids

**Covered benefits** also include formula and food products modified to be low in protein for the treatment or diagnosis of phenylketonuria or an inherited disease or disorder of amino acids and organic acids. This includes coverage for amino-acid based elemental formula.

For purposes of this benefit, “low protein modified food product” means foods that are specifically formulated to have less than one gram of protein per serving and are intended to be used under the direction of a physician for the dietary treatment of any inherited metabolic illness. Low protein modified food products do not include foods that are naturally low in protein.

Your physician must give you a written order.

For coverage of drugs available only on the orders of a physician please refer to the Eligible health services under your plan – Outpatient prescription drug section.

**Orthotic devices**

**Eligible health services** include the initial orthotic device and subsequent replacement that your physician orders and administers.

We will cover the same type of devices that are covered by Medicare. Your provider will tell us which device best fits your needs. But we cover it only if we preauthorize the device.

Orthotic device means a customized medical device applied to a part of the body to:

- Correct a deformity
- Improve function
- Relieve symptoms of a disease

Coverage includes:

Repairing or replacing the original device unless you misuse or lose the device. Examples include:
Osteoporosis (non-preventive care)

Eligible health services include services to detect and prevent osteoporosis for:

- A postmenopausal woman not receiving estrogen replacement therapy
- An individual with:
  - Vertebral abnormalities
  - Primary hyperparathyroidism
  - A history of bone fracture
- An individual who is:
  - Receiving long-term glucocorticoid therapy

Being monitored to assess the response to or efficacy of an approved osteoporosis drug therapy.

Prosthetic devices

Eligible health services include the initial provision and subsequent replacement of a prosthetic device that your physician orders and administers.

We will cover the same type of devices that are covered by Medicare. Your provider will tell us which device best fits your needs.

Prosthetic device means:

- A device that temporarily or permanently replaces all or part of an external body part lost or impaired as a result of illness or injury or congenital defects

Coverage includes:

- The prosthetic device
- Repairing or replacing the original device unless you misuse or lose the device. Examples include:
  - Repairing or replacing the original device you outgrow or that is no longer appropriate because your physical condition changed
  - Replacements required by ordinary wear and tear or damage
- The fitting, instruction and other services (such as attachment or insertion) so you can properly use the device

Hearing aids and exams

Eligible health services include hearing care that includes hearing exams, prescribed hearing aids and hearing aid services as described below.

Hearing aid means:

- Any wearable, non-disposable instrument or device designed to aid impaired human hearing
- Parts, attachments, or accessories

Hearing aid services are:

- Audiometric hearing exam and evaluation for a hearing aid prescription performed by:
  - A physician certified as an otolaryngologist or otologist
  - An audiologist who is legally qualified in audiology, or holds a certificate of Clinical Competence in Audiology from the American Speech and Hearing Association in the absence of any licensing requirements; and who performs the exam at the written direction of a legally qualified otolaryngologist or otologist
  - Any other provider acting within the scope of their license
- Electronic hearing aids, installed in accordance with a prescription written during a covered hearing exam
- Any other related services necessary to access, select and adjust or fit a hearing aid
Hearing Aids Alternate Treatment Rule
Sometimes there are several types of hearing aids that can be used to treat a medical condition, all of which provide acceptable results. When alternate hearing aids can be used, the plan’s coverage may be limited to the cost of the least expensive device that is:

- Customarily used nationwide for treatment and
- Deemed by the medical profession to be appropriate for treatment of the condition in question. The device must meet broadly accepted standards of medical practice for your physical condition.

You should review the differences in the cost of alternate treatment with your physician. Of course, you and your physician can still choose the more costly treatment method. You are responsible for any charges in excess of what the plan will cover for hearing aids.

Podiatric (foot care) treatment

Eligible health services include non-routine foot care for the treatment of illness or injury of the feet by physicians and health professionals.

Non-routine treatment means:
- It would be hazardous for you if someone other than a physician or health professional provided the care
- You have an illness that makes the non-routine treatment essential
- The treatment is routine foot care but it’s part of an eligible health service (e.g., debriding of a nail to expose a subungual ulcer, or treatment of warts)
- The treatment you need might cause you to have a change in your ability to walk.

Vision care

Pediatric vision care

Routine vision exams
Eligible health services include a routine vision exam provided by an ophthalmologist, optometrist, therapeutic optometrist, or any other providers acting within the scope of their license. The exam will include refraction and glaucoma testing.

Vision care services and supplies
Eligible health services include:

- Office visits to an ophthalmologist, optometrist, therapeutic optometrist or optician related to the fitting of prescription contact lenses
- Eyeglass frames, prescription lenses or prescription contact lenses that are identified as preferred by a vision provider
- Eyeglass frames, prescription lenses or prescription contact lenses that are identified as non-preferred by a vision provider
- Non-conventional prescription contact lenses that are required to correct visual acuity to 20/40 or better in the better eye and that correction cannot be obtained with conventional lenses
- Aphakic prescription lenses prescribed after cataract surgery has been performed
- Low vision services including comprehensive low vision evaluations and prescribed optical devices, such as high-power spectacles, magnifiers, and telescopes

In any one policy year, this benefit will cover either prescription lenses for eyeglass frames or prescription contact lenses, but not both.
9. Outpatient prescription drugs

Eligible health services include outpatient prescription drugs when prescribed in writing by a prescriber to treat an illness or injury and dispensed by a pharmacy.

Preventive contraceptives
For females who are able to reproduce, your plan covers certain drugs and devices that the U.S. Food and Drug Administration (FDA) has approved to prevent pregnancy when prescribed by a prescriber and the prescription is submitted to the pharmacist for processing. Your outpatient prescription drug plan also covers related services and supplies needed to administer covered devices. At least one form of contraception in each of the methods identified by the FDA is included. You can access the list of contraceptive drugs by logging onto your Aetna Navigator® secure member website at www.aetnastudenthealth.com or calling the number on your ID card.

We cover over-the-counter (OTC) and generic prescription drugs and devices for each of the methods identified by the FDA at no cost share. If a generic prescription drug or device is not available for a certain method, you may obtain certain brand-name prescription drug for that method at no cost share.

Important note: You may qualify for a medical exception if your provider determines that the contraceptives covered standardly as preventive are not medically appropriate. Your prescriber may request a medical exception and submit the exception to us.

Preventive care drugs and supplements
Eligible health services include preventive care drugs and supplements (including over-the-counter drugs and supplements) as required by the Affordable Care Act (ACA) guidelines when prescribed by a prescriber and the prescription is submitted to the pharmacist for processing.

Risk reducing breast cancer prescription drugs
Eligible health services include prescription drugs used to treat people who are at:
- Increased risk for breast cancer, and
- Low risk for adverse medication side effects

Tobacco cessation prescription and over-the-counter drugs
Eligible health services include FDA-approved prescription drugs and over-the-counter (OTC) drugs to help stop the use of tobacco products, when prescribed by a prescriber and the prescription is submitted to the pharmacist for processing.

Prescription eye drops
You may refill prescription eye drops to treat a chronic eye disease or condition if:
- The original prescription states that additional quantities are needed
- The refill does not exceed the total quantity of dosage units stated on the original prescription, including refills
- The refill is dispensed on or before the last day of the prescribed dosage period and not earlier than the:
  - 21st day after the date a 30-day supply is dispensed
  - 42nd day after the date a 60-day supply is dispensed
  - 63rd day after the date a 90-day supply is dispensed
Partial-fill dispensing program
We allow a partial fill of your prescription if:
- Your pharmacy or prescriber tells us that:
  - The quantity requested is to synchronize the dates that the pharmacy fills your prescription drugs
  - The synchronization of the dates is in your best interest
- You agree to the synchronization

Your out-of-pocket expenses will be prorated based on the number of days’ supply.

Cost-sharing for prescription drugs from a pharmacy
When you get prescription drugs from a pharmacy, the pharmacy will only require you at that time to pay the lowest amount out of the following:
- The applicable copayment
- The allowable claim amount for the prescription drug
- The amount you would pay for the prescription drug if you bought it without using your plan or any other prescription drug benefits or discounts.

You may later have to pay additional cost sharing for these prescription drugs. For example, if you have not met your prescription drug deductible (if applicable), you may owe additional cost sharing.
What your plan doesn’t cover – some eligible health service exceptions

We already told you about the many health care services and supplies that are eligible for coverage under your plan in the Eligible health services under your plan section. And we told you there, that some of those health care services and supplies have exceptions (“exclusions”). For example, physician care is an eligible health service but physician care for cosmetic surgery is never covered. This is an exception (exclusion).

In this section we tell you about the exceptions. And just a reminder, you’ll find coverage limitations in the schedule of benefits.

- Eye surgery for the correction of vision, including radial keratotomy, LASIK and similar procedures.
- Services to treat errors of refraction.
Work related illness or injuries

- Coverage available to you under worker’s compensation or under a similar program under local, state or federal law for any illness or injury related to employment or self-employment.
- A source of coverage or reimbursement will be considered available to you even if you waived your right to payment from that source. You may also be covered under a workers’ compensation law or similar law. If you submit proof that you are not covered for a particular illness or injury under such law, then that illness or injury will be considered “non-occupational” regardless of cause.
Exceptions that apply to outpatient prescription drugs

Abortion drugs

Allergy sera and extracts administered via injection

Any services related to the dispensing, injection or application of a drug

Biological sera

Contraceptive methods, procedures, services, and supplies for contraceptive purposes

- Contraceptive methods, procedures, services, and supplies for contraceptive purposes as elected by the policyholder due to an exemption or accommodation in accordance with applicable federal or state law and regulation
- Services provided as a result of complications resulting from voluntary sterilization procedure and related follow-up care

Compounded prescriptions

- Compound prescriptions containing bulk chemicals that have not been approved by the U.S. Food and Drug Administration (FDA) including compounded bioidentical hormones

Cosmetic drugs

- Medications or preparations used for cosmetic purposes

Devices, products and appliances, except those that are specially covered

Drugs or medications

- Administered or entirely consumed at the time and place it is prescribed or dispensed
- Which do not, by federal or state law, require a prescription order (i.e. over-the-counter (OTC) drugs), even if a prescription is written except as specifically provided in the Eligible health services under your plan – Outpatient prescription drugs section
- That is therapeutically equivalent or therapeutically alternative to a covered outpatient prescription drug biosimilar (unless a medical exception is approved)
- That is therapeutically equivalent or therapeutically alternative to an over-the-counter (OTC) product (unless a medical exception is approved)
- Not approved by the FDA or not proven safe and effective
- Provided under your medical plan while an inpatient of a healthcare facility
- Recently approved by the U.S. Food and Drug Administration (FDA), but which have not yet been reviewed by Aetna's Pharmacy and Therapeutics Committee
- That includes vitamins and minerals unless recommended by the United States Preventive Services Task Force (USPSTF)
- That are used to treat sexual dysfunction, enhance sexual performance or increase sexual desire, including drugs, implants, devices or preparations to correct or enhance erectile function, enhance sensitivity, or alter the share or appearance of a sex organ
- That are drugs or growth hormones used to stimulate growth and treat idiopathic short stature unless there is evidence that the covered person meets one or more clinical criteria detailed in our preauthorization and clinical policies
Duplicative drug therapy (e.g. two antihistamine drugs)

Genetic care
- Any treatment, device, drug, service or supply to alter the body’s genes, genetic make-up, or the expression of the body’s genes except for the correction of congenital birth defects

Immunizations related to travel or work

Immunization

Implantable drugs and associated devices except as specifically provided in the Eligible health services under your plan – Outpatient prescription drugs sections.

Infertility
- Injectable prescription drugs used primarily for the treatment of infertility

Injectables
- Any charges for the administration or injection of prescription drugs or injectable insulin and other injectable drugs covered by us. See the Eligible health services under your policy – Diabetic equipment, supplies and education section for covered equipment and supplies.
- Needles and syringes, except for those used for self-administration of an injectable drug.
- Any drug, which due to its characteristics as determined by us must typically be administered or supervised by a qualified provider or licensed certified health professional in an outpatient setting. This exception does not apply to Depo Provera and other injectable drugs used for contraception.

Insulin pumps or tubing or other ancillary equipment and supplies for insulin pumps except as specifically provided in the Eligible health services under your plan – Diabetic equipment, supplies and education section.

Prescription drugs:
- For which there is an over-the-counter (OTC) product which has the same active ingredient and strength even if a prescription is written.
- Packaged in unit dose form.
- Filled prior to the effective date or after the termination date of coverage under this rider.
- Dispensed by a mail order pharmacy that include prescription drugs that cannot be shipped by mail due to state or federal laws or regulations, or when the plan considers shipment through the mail to be unsafe. Examples of these types of drugs include, but are not limited to, narcotics, amphetamines, DEA controlled substances and anticoagulants.
- That are considered oral dental preparations and fluoride rinses, except pediatric fluoride tablets or drops as specified on the preferred drug guide.
- That are being used or abused in a manner that is determined to be furthering an addiction to a habit-forming substance, the use of or intended use of which would be illegal, unethical, imprudent, abusive, not medically necessary, or otherwise improper, and drugs obtained for use by anyone other than the person identified on the ID card.

Refills
- Refills dispensed more than one year from the date the latest prescription order was written
Replacement of lost or stolen prescriptions

Test agents except diabetic test agents

Tobacco cessation
  • Tobacco cessation products unless recommended by the United States Preventive Services Task Force (USPSTF)
Who provides the care

Just as the starting point for coverage under your plan is whether the services and supplies are eligible health services, the foundation for getting covered care is through our network of providers. This section tells you about in-network and out-of-network providers.

In-network providers

We have contracted with providers to provide eligible health services to you. These providers make up the network for your plan. For you to receive the in-network level of benefits you must use in-network providers for eligible health services. There are some exceptions:

- **Emergency services** – refer to the description of emergency services and urgent care in the Eligible health services under your plan section
- **Urgent care** – refer to the description of emergency services and urgent care in the Eligible health services under your plan section
- **In-network provider not reasonably available** – You can get eligible health services under your plan that are provided by an out-of-network provider regardless of whether an in-network provider is reasonably available. However, if an appropriate in-network provider is not reasonably available, and you need to see an out-of-network provider, we will:
  - Pay the claim at the usual or customary charge, minus any cost-sharing you owe
  - Pay the claim at the preferred coinsurance level
  - Apply to your policy year deductible and annual network maximum out-of-pocket limit any amounts over the allowed amount that you paid to the out-of-network provider for covered benefits.

You may select an in-network provider from the directory through your Aetna Navigator® secure website at www.aetnastudenthealth.com. You can search our online directory, DocFind®, for names and locations of providers or contact Member Services at the toll-free number on your ID card.

You will not have to submit claims for treatment received from in-network providers. Your in-network provider will take care of that for you. And we will directly pay the in-network provider for what the plan owes.

Out-of-network providers

You also have access to out-of-network providers. This means you can receive eligible health services from an out-of-network provider. If you use an out-of-network provider to receive eligible health services, you are subject to a higher out-of-pocket expense and are responsible for:

- Paying your out-of-network policy year deductible
- Your out-of-network coinsurance
- Any charges over our recognized charge
- Submitting your own claims and getting preauthorization

Keeping a provider you go to now (continuity of care)

You may have to find a new provider when:

- You join the plan and the provider you have now is not in the network
- You are already covered under another Aetna plan and your provider stops being in our network

However, in some cases, you may be able to keep going to your current provider to complete a treatment or to have treatment that was already scheduled. This is called continuity of care.

We will authorize coverage for the transitional period only if the provider agrees to our usual terms and conditions for contracting providers.
What the plan pays and what you pay

Who pays for your eligible health services – this plan, both of us, or just you? That depends. This section gives the general rule and explains these key terms:

- Your policy year deductible
- Your copayments
- Your coinsurance
- Your maximum out-of-pocket limit

We also remind you that sometimes you will be responsible for paying the entire bill – for example, if you get care that is not an eligible health service.

The general rule

When you get eligible health services:

- You pay for the entire expense up to any policy year deductible limit

  And then

- The plan and you share the expense up to any maximum out-of-pocket limit. The schedule of benefits lists how much your plan pays and how much you pay for each type of health care service. Your share is called a copayment/coinsurance

  And then

- The plan pays the entire expense after you reach your maximum out-of-pocket limit

When we say “expense” in this general rule, we mean the negotiated charge for an in-network provider, and recognized charge for an out-of-network provider. See the Glossary section for what these terms mean.

Important exception – when your plan pays all

Under the in-network level of coverage, your plan pays the entire expense for all eligible health services under the Preventive care and wellness benefit.

Important exceptions – when you pay all

You pay the entire expense for an eligible health service:

- When you get a health care service or supply that is not medically necessary. See the Medical necessity and preauthorization requirements section.

  - When your plan requires preauthorization, your physician requested it, we refused it, and you get an eligible health service without preauthorization. See the Medical necessity and preauthorization requirements section.

In all these cases, the provider may require you to pay the entire charge. Any amount you pay will not count towards your policy year deductible or towards your maximum out-of-pocket limit.
Special financial responsibility
You are responsible for the entire expense of:

• Cancelled or missed appointments

Neither you nor we are responsible for:

• Charges for which you have no legal obligation to pay
• Charges that would not be made if you did not have coverage
• Charges, expenses, or costs in excess of the negotiated charge for in-network covered benefits
• Standby charges made by a physician

Where your schedule of benefits fits in
How your policy year deductible works
Your policy year deductible is the amount you need to pay for eligible health services per policy year before your plan begins to pay for eligible health services. Your schedule of benefits shows the policy year deductible amounts for your plan.

How your copayment works
Your copayment is the amount you pay for eligible health services after you have paid your policy year deductible. Your schedule of benefits shows you which copayments you need to pay for specific eligible health services.

How your maximum out-of-pocket limit works
You will pay your policy year deductible, and copayments, and coinsurance up to the maximum out-of-pocket limit for your plan. Your schedule of benefits shows the maximum out-of-pocket limits that apply to your plan. Once you reach your maximum out-of-pocket limit, your plan will pay for covered benefits for the remainder of that policy year.

Important note:
See the schedule of benefits for any policy year deductibles, copayments, coinsurance, maximum out-of-pocket limit and maximum age, visits, days, hours, admissions that may apply.
When you disagree - claim decisions and appeals procedures

In the previous section, we explained how you and we share responsibility for paying for your eligible health services.

When a claim comes in, we decide and tell you how you and we will split the expense. We also explain what you can do if you think we got it wrong.

<td>• A completed claim form and any additional information required by us.</td>
<td></td>
</tr>
</tbody>
</table>

### Benefit payment
- Written proof must be provided for all benefits.
- If any portion of a claim is contested by us, the uncontested portion of the claim will be paid promptly after the receipt of proof of loss.
- We will accept or reject a claim not later than 15 business days of receiving all items, statements and forms.
- Benefits will be paid not later than 5 business days after the date the notice of acceptance is sent.
- If we reject the claim the written notice will include the reason for denial.
- All benefits payable will be paid no later than 60 calendar days from the proof of loss is received.

### Types of claims and communicating our claim decisions
You or your provider is required to send us a claim in writing. You can request a claim form from us. We will review that claim for payment to the provider or to you as appropriate.

There are different types of claims. The amount of time that we have to tell you about our decision on a claim depends on the type of claim. The section below will tell you about the different types of claims.

**Urgent care claim**
An urgent care claim is one for which the doctor treating you decides a delay in getting medical care, in the opinion of the attending physician, could put your life or health at risk. Or a delay might put your ability to regain maximum function at risk. It could also be a situation in which you need care to avoid severe pain.

If you are pregnant, an urgent care claim also includes a situation that can cause serious risk to the health of your unborn baby.

**Pre-service claim**
A pre-service claim is a claim that involves services you have not yet received and which we will pay for only if we preauthorize them.

**Retrospective claim**
A retrospective claim is a claim that involves health care services you have already received.

**Concurrent care claim extension decision**
You or your provider may ask for a concurrent care claim extension to request more services. We will tell you when we make a decision for such a request. If we make an adverse determination, you will have enough time to file an appeal. Your coverage for the service or supply will continue until you receive a final appeal decision from us or an independent review organization if the situation is eligible for independent review.
We will not reduce or deny coverage for services that we have already approved. During the concurrent care claim extension period, you are still responsible for your share of the costs, such as copayments/coinsurance and deductibles that apply to the service or supply. If your request for extended services is not approved after your adverse determination appeal, and we support the decision to reduce or terminate such services, you will be responsible for all of the expenses for the service or supply received during the continuation period.

The chart below shows a timetable view of how much time we have to tell you about our decision on a preauthorization request, a concurrent care authorization request and a retrospective review.

We may need to tell your physician about our decision on some types of claims, such as a concurrent care claim, or a claim when you are already receiving the health care services or are in the hospital.

*If we approve the care and services, we will send you a letter no later than 2 business days after we receive the request. The Adverse determinations section explains how and when we tell you about an adverse determination.*

**Adverse determinations**

We pay many claims at the full rate **negotiated charge** with **in-network provider** and the **recognized charge** with an **out-of-network provider**, except for your share of the costs. But sometimes we pay only some of the claim. And sometimes we deny payment entirely. Any time we deny even part of the claim that is an “adverse determination”. It is also an “adverse determination” if we rescind your coverage entirely.

An adverse determination is our determination that the health care services you have received, or may receive, are:

- Experimental or investigational
- Not medically necessary

It is also an adverse determination if our determination is based on:

- Your eligibility for coverage
- Your plan’s exceptions *What your plan doesn’t cover – some eligible health service exceptions* section

If we make an adverse determination, we will tell you in writing. Our written decision will tell you:

- The main reason for the denial
- The clinical basis for the denial
- The source of the screening criteria used as a guideline to make the decision
- How to ask for an appeal of the denial, including your right to appeal to an independent review organization (IRO) and how to obtain an independent review
- How to obtain an immediate review by the IRO when the claim denial involves:
  - A life-threatening condition
  - The provision of **prescription drugs** or intravenous infusions for which the patient is receiving health benefits under the certificate of coverage
  - Requests for **step therapy** exception
The chart below tells you how much time we have to tell you about an adverse determination.

**Important note:**
We will tell you about an adverse determination within the time appropriate to the circumstances relating to the delivery of the services and your condition. We will always tell you no later than the times shown in the chart above.

**The difference between a complaint and an appeal**

**A Complaint**
You may not be happy about a provider or an operational issue, and you may want to complain. You can call Member Services at the toll-free number on your ID card or write Member Services. Your complaint should include a description of the issue. Some other examples of complaints are when you are not happy with:

- How we have administered the plan
- How we have handled the appeal process
- When we deny a service that is not related to medical necessity issues
- The manner in which a service is provided
- A disenrollment decision
But it is not a complaint if:

- We resolve a misunderstanding or misinformation, to your satisfaction, by providing an explanation or more information.
- You or your provider call or write to tell us you are unhappy with, or disagree with, an adverse determination. Instead, this is an appeal of the adverse determination. See the Appeal of adverse determinations and Timeframes for deciding appeals of adverse determinations sections for more information.

Your complaint should include a description of the issue. You should include copies of any records or documents that you think are important. We will let you know that we have received your complaint within 5 business days. Our letter will tell you about our complaint procedures and timeframes. If you call us to complain, we will send you a complaint form to complete and return. We will review the information and provide you with a written response within 30 calendar days of receiving the complaint. If your complaint is for services that you have not already received, we will provide you with a written response within 15 calendar days of receiving the complaint. We will let you know if we need more information to make a decision.

If your complaint concerns an emergency, or denial of continued hospitalization or prescription drugs and intravenous infusions, we will do an expedited appeal review. See the Appeal of adverse determinations and Timeframes for deciding appeals of adverse determinations sections for more information.

An appeal

Your request to reconsider an adverse determination is an appeal of an adverse determination. It is also an appeal if you ask us to re-review a complaint because you are not happy with our initial response. The Appeal of a complaint and Appeal of adverse determinations sections below explain the appeal processes for both types of appeals.

Appeals of adverse determinations

You can appeal our adverse determination

We will assign your appeal to someone who was not involved in making the original decision.

You can appeal by sending a written appeal to the address on the notice of adverse benefit determination or by calling Member Services at the toll-free number on your ID card. For a written appeal, you need to include:

- Your name
- The policyholder's name
- A copy of the adverse determination
- Your reasons for making the appeal
- Any other information you would like us to consider
- If you appealed verbally or in writing, we will send you a one page appeal form to be filled out by you or your authorized representative.

Another person may submit an appeal for you, including a provider. That person is called an authorized representative. You need to tell us if you choose to have someone else appeal for you (even if it is your provider). You should fill out an authorized representative form telling us that you are allowing someone to appeal for you. You can get this form on our website or by calling the Member Services toll-free number on your ID card. The form will tell you where to send it to us. You can use an authorized representative at any level of appeal.
We will let you know that we have received your appeal of the adverse determination within 5 business days. This notice will describe the appeals process and your rights. If you call us to appeal, we will send you an appeal form to complete and return.

The review and decision of your appeal will be made by personnel not involved in making the initial adverse determination.

**Expedited internal appeal**
You are entitled to an expedited internal appeal process for emergency care denials, denials of care for life-threatening conditions, and denials of continued stays in a hospital. You can also ask for an expedited internal appeal if we deny a request for step therapy exception or a request for prescription drugs or intravenous infusions you are currently receiving.

The review and decision of your appeal will be made by personnel not involved in making the initial adverse determination.

**Important note:**
You can skip our standard and expedited internal appeal process and instead appeal to an independent review organization (IRO) in some situations. See the Exhaustion of appeals process section.

**Timeframes for deciding appeals of adverse determinations**
The amount of time that we have to tell you about our decision on an appeal of an adverse determination depends on the type of claim. The chart below shows a timetable view of the different types of claims and how much time we have to tell you about our decision. We may tell you about our decision verbally or in writing. If we tell you verbally, we will also send you a letter within 3 calendar days after the verbal notice.

*If your appeal is denied, your provider may ask us in writing to have a certain type of specialty provider review your case. The request must show good cause for specialty review. The request must be made not later than 10 business days after the appeal was denied. A provider of the same or a similar specialty who would typically manage this type of condition will do the review. A decision will be made within 15 working days of the date we receive such a request.

Exhaustion of appeals process

- In most situations you must complete an appeal with us before you can Appeal through an independent review process.
- We encourage you to complete an appeal with us before you pursue arbitration, litigation or other type of administrative proceeding.

You do not have to complete the internal appeals process when:

- You have an urgent claim or a claim that involves ongoing treatment. You can have your claim reviewed internally and at the same time through the independent review process.
- We did not follow all of the claim determination and appeal requirements of the Federal Department of Health and Human Services. But, you will not be able to proceed directly to independent review if:
  - The rule violation was minor and not likely to influence a decision or harm you.
  - The violation was for a good cause or beyond our control.
  - The violation was part of an ongoing, good faith exchange between you and us.
- You have a life-threatening condition. You can have your appeal reviewed through the internal review process.
- You are receiving prescription drugs or intravenous infusion treatment and we deny them. You can have your appeal reviewed through the independent review process.
- Your request for a step therapy exception was denied. You can have your appeal reviewed through the independent review process.

Independent review

Independent review is a review done by people in an organization outside of Aetna. This is called an independent review organization (IRO).

You have a right to independent review only if:

- Our claim decision involved medical judgment
- We decided the service or supply is not medically necessary or not appropriate
- We decided the service or supply is experimental or investigational
- You have received an adverse determination

If our claim decision is one for which you can seek independent review, we will say that in the notice of adverse determination we send you. That notice also will describe the independent review process. It will include a copy of the Request for Independent Review form.
You must submit the Request for Independent Review Form:

- **To Aetna**
- Within 6 months of the date you received the decision from us
- And you must include a copy of the notice from us and all other important information that supports your request

You will pay for any information that you send and want reviewed by the IRO. We will pay for information we send to the IRO plus the cost of the review.

**Aetna** will:
- Contact the IRO that will conduct the review of your claim If your request is based on exigent circumstances your request will be sent as soon as possible. An “exigent circumstance” means when you are:
  - Experiencing a health condition that may seriously jeopardize your life, health or ability to regain maximum function
  - Undergoing a current course of treatment using a non-formulary drug.
- The IRO will:
  - Assign the appeal to one or more independent clinical reviewers that have the proper expertise to do the review
  - Consider appropriate credible information that you sent
  - Follow our contractual documents and your plan of benefits
  - Send notification of the decision within 45 calendar days of the date we receive your request form and all the necessary information

We will stand by the decision that the IRO makes, unless we can show conflict of interest, bias or fraud.

**How long will it take to get an IRO decision?**
We will tell you of the IRO decision not more than 45 calendar days after we receive your Notice of Independent Review Form with all the information you need to send in.

But sometimes you can get a faster independent review decision. Your **provider** must call us or send us a Request for Independent Review Form.

You may be able to get a faster independent review after an **adverse determination** if your **provider** tells us that a delay in your receiving health care services would:
- Jeopardize your life, health or ability to regain maximum function
- Be much less effective if not started right away (**experimental or investigational** treatment)
- The adverse determination concerns an admission, availability of care, continued stay or health care service for which you received **emergency services**, but have not been discharged from a facility

If your situation qualifies for this faster review, you will receive a decision within 72 hours of us getting your request or within 24 hours if your request is for an exigent circumstance.

**Recordkeeping**
We will keep the records of all complaints and appeals for at least 10 years.

**Fees and expenses**
We do not pay any fees or expenses incurred by you in pursuing a complaint or appeal. But we will pay the fees or expenses incurred for the review of the IRO.
Coordination of benefits

(“COB”) provision applies when a person has health care coverage under more than one plan. If you do, we will work together with your other plan(s) to decide how much each plan pays. This is called coordination of benefits (COB). “Plan” is defined below in the Key terms section.

The order of benefit determination rules tell you the order in which each plan will pay a claim for benefits. The plan that pays first is called the primary plan. The primary plan must pay benefits in accordance with its policy terms. Payment is made without regard to the possibility that another plan may cover some expenses. The plan that pays after the primary plan is the secondary plan. The secondary plan may reduce the benefits it pays so that payments from all plans do not exceed 100% of the total allowable expense.

Key terms
Here are some key terms we use in this section. These terms will help you understand this COB section.

- It does not include:
  - Disability income protection coverage
  - The Texas Health Insurance Pool
  - Workers’ compensation insurance coverage
  - **Hospital** confinement indemnity coverage or other fixed indemnity coverage
  - Specified disease coverage
  - Supplemental benefit coverage
  - Accident only coverage
  - Specified accident coverage
  - School accident-type coverages that cover students for accidents only, including athletic injuries, either on a "24-hour" or a "to and from school" basis
  - Benefits provided in long-term care insurance policies for non-medical services, for example, personal care, adult day care, homemaker services, assistance with activities of daily living, **respite care**, and **custodial care** or for policies that pay a fixed daily benefit without regard to expenses incurred or the receipt of services
  - **Medicare** supplement policies
  - A state plan under Medicaid
  - A governmental plan that, by law, provides benefits that are in excess of those of any private insurance plan
  - Other nongovernmental plan
  - An individual accident and health insurance policy that is designed to fully integrate with other policies through a variable **policy year deductible**

- Each plan for coverage is a separate plan. If a plan has two parts and COB rules apply only to one of the two, each of the parts is treated as a separate plan.

This plan:
This plan means, in a COB provision, the part of the contract providing the health care benefits to which the COB provision applies and which may be reduced because of the benefits of other plans.

- How this plan coordinates with like benefits:
  Any other part of the contract providing health care benefits is separate from this plan. A contract may apply one COB provision to certain benefits, such as dental benefits, coordinating only with like benefits, and may apply other separate COB provisions to coordinate other benefits.
The order of benefit determination rules for this plan:

- The order of benefit determination rules determine whether this plan is a primary plan or secondary plan when the **covered person** has health care coverage under more than one plan.
  - When this plan is primary, it determines payment for its benefits first before those of any other plan without considering any other plan's benefits.
  - When this plan is secondary, it determines its benefits after those of another plan and may reduce the benefits it pays so that all plan benefits equal 100% of the total allowable expense.

**Allowable expense:**

Allowable expense is a health or dental care expense, including **policy year deductibles**, **coinsurance** and **copayments**, that is covered at least in part by any plan covering the person.

- **Allowable expense for benefits provided in the form of services:**
  
  When a plan provides benefits in the form of services, the reasonable cash value of each service will be considered an allowable expense and a benefit paid.

- **Expenses that are not allowable expenses:**

  An expense that is not covered by any plan covering the **covered person** is not an allowable expense. In addition, any expense that a **provider** or **physician**, by law or in accordance with a contractual agreement, is prohibited from charging a **covered person** is not an allowable expense.

  Some expenses and services are not allowable expenses. Here are some examples:
  - The difference between the cost of a semi-private **hospital** room and a private **hospital** room is not an allowable expense, unless one of the plans provides coverage for private **hospital** room expenses.
  - If a **covered person** is covered by two or more plans that don’t have a **negotiated charge** and compute their benefit payments based on the usual and customary fees, allowed amounts, or relative value schedule reimbursement methodology, or other similar reimbursement methodology, any amount in excess of the highest reimbursement amount for a specific benefit is not an allowable expense.
  - If a **covered person** is covered by two or more plans that provide benefits or services on the basis of **negotiated charges**, an
amount in excess of the highest of the **negotiated charges** is not an allowable expense.

- If a **covered person** is covered by one plan that does not have **negotiated charges** and that calculates its benefits or services based on usual and customary fees, allowed amounts, relative value schedule reimbursement methodology, or other similar reimbursement methodology, and another plan that provides its benefits or services based on **negotiated charges**, the primary plan’s payment arrangement must be the allowable expense for all plans. However, if the health care **provider** or **physician** has contracted with the secondary plan to provide the benefit or service for a specific **negotiated charge** or payment amount that is different than the primary plan’s payment arrangement and if the health care **provider's** or **physician's** contract permits, the **negotiated charge** or payment must be the allowable expense used by the secondary plan to determine its benefits.

- The amount of any benefit reduction by the primary plan because a **covered person** has failed to comply with the plan provisions is not an allowable expense. Examples of these types of plan provisions include second surgical opinions, preauthorization of admissions, and in-network provider and **physician** arrangements.

**Allowed amount:**

Allowed amount is the amount of a billed charge that a carrier determines to be covered for services by an **out-of-network provider**. The amount includes both the carrier’s payment and any applicable **policy year deductible**, **copayment**, or **coinsurance** amounts for which the insured is responsible.

**Closed panel plan:**

Closed panel plan is a plan that provides health care benefits to **covered persons** primarily in the form of services through a panel of health care **providers** and **physicians** that have contracted with or are employed by the plan, and that excludes coverage for services provided by other health care **providers** and **physicians**, except in cases of emergency by a panel member.

**Custodial parent:**

Custodial parent is the parent with the right to designate the primary residence of a child by court order under the Texas Family Code or other applicable law, or in the absence of a court order, is the parent with whom the child resides more than one-half of the **calendar year**, excluding any temporary visitation.
Order of benefit determination rules
When you are covered by two or more plans, the rules for determining the order of benefit payments are as follows:

- The primary plan pays according to its terms of coverage and without regard to the benefits under any other plan.
- A plan that does not have a COB provision is always primary unless the provisions of both plans state that the complying plan is primary, except:
  - Coverage that you have because of membership in a group that is designed to supplement a part of a basic package of benefits and provides that this supplementary coverage must be excess to any other parts of the plan provided by the policyholder. Examples of these types of situations are:
    - Major medical coverages that are superimposed over base plan hospital and surgical benefits
    - Insurance type coverages that are written in connection with a closed panel plan to provide out-of-network benefits.
- A plan may consider the benefits paid by another plan in calculating payment of its benefits only when it is secondary to that other plan.
- If the primary plan is a closed panel plan and the secondary plan is not, the secondary plan must pay benefits as if it were the primary plan when a covered person uses an out-of-network provider or physician, except for emergency services that are paid or provided by the primary plan.
- When multiple policies providing coordinated coverage are treated as a single plan, this applies only to the plan as a whole. Coordination among the component policies is governed by the terms of the policies. If more than one carrier pays or provides benefits under the plan, the carrier designated as primary within the plan must be responsible for the plan's compliance with these rules.
- If a covered person is covered by more than one secondary plan, the order of benefit determination rules decide the order in which secondary plans' benefits are determined in relation to each other. Each secondary plan must take into consideration the benefits of the primary plan or plans and the benefits of any other plan that, under the rules of this contract, has its benefits determined before those of that secondary plan.

Reading from top to bottom the first rule that applies will determine which plan is primary and which is secondary.

Effect on the benefits of this plan

- When this plan is secondary, it may reduce its benefits so that the total benefits paid or provided by all plans are not more than the total allowable expenses. In determining the amount to be paid for any claim, the secondary plan:
  - Will calculate the benefits it would have paid in the absence of other health care coverage. The calculated amount will be applied to any allowable expense under its plan that is unpaid by the primary plan.
  - May reduce its payment so that the total benefits paid or provided by all plans for the claim equal 100% of the total allowable expense for that claim.
  - Must credit to its plan policy year deductible any amounts it would have credited to its policy year deductible in the absence of other health care coverage.

- If a covered person is enrolled in two or more closed panel plans and if, for any reason, including the provision of service by a non-panel provider, benefits are not payable by one closed panel plan, COB must not apply between that plan and other closed panel plans.

Compliance with federal and state laws concerning confidential information
Certain facts about health care coverage and services are needed to apply these COB rules and to determine benefits payable under this plan and other plans. We will comply with federal and state law concerning confidential information for the purpose of applying these rules and determining benefits payable under this plan and other plans covering the person claiming benefits. Each person claiming benefits under this plan must give us any facts it needs to apply those rules and determine benefits.

Facility of payment
A payment made under another plan may include an amount that should have been paid under this plan. If it does, we may pay that amount to the organization that made that payment. That amount will then be treated as though it were a benefit paid under this plan. We will not have to pay that amount again. The term "payment made" includes providing benefits in the form of services, in which case "payment made" means the reasonable cash value of the benefits provided in the form of services.

Right of recovery
If the amount of the payments made by us is more than we should have paid under this COB provision, we may recover the excess from one or more of the persons we have paid or for whom we have paid. Or, we may recover from any other person or organization that may be responsible for the benefits or services provided for the covered person. The "amount of the payments made" includes the reasonable cash value of the benefits provided in the form of services.

When coverage ends

Coverage can end for a number of reasons. This section tells you how and why coverage ends and when you may still be able to continue coverage.

When will your coverage end?
Your coverage under this plan will end on the date of the first to occur:

- This plan is discontinued
- The student policy ends
- You are no longer eligible for coverage
- The last day for which any required premium contribution has been paid
- The date you are no longer in an eligible class
- We end your coverage for one of the reasons shown in this section
- You choose to become covered under another medical plan offered by the policyholder
- The date you withdraw from the school because of entering the armed forces of any country

If your coverage ends because you withdraw from school for reasons other than entering the armed forces, we will not refund premium contributions. You are covered for the policy term for which you enrolled and paid the premium contribution.

If you withdraw from school because you have entered the armed forces, premiums will be refunded, on a pro-rata basis, when we receive your application within 90 days from the date of the withdrawal.

Why would we suspend paying claims or end your coverage?
We will give you 30 days advance written notice if we suspend paying your claims because:

We may immediately end your coverage if:

- You commit fraud or intentionally misrepresent yourself when you applied for or obtained coverage. You can refer to the General provisions – other things you should know- Honest mistakes and intentional deception section for more information on rescissions.

On the date your coverage ends, we will refund to the policyholder any prepayments for periods after the date your coverage ended.

We will not end your coverage because you used your rights under the When you disagree – claim decisions and appeals procedures section of this certificate of coverage.
Special coverage options after your plan coverage ends

This section explains options you may have after your coverage ends under this plan. Your individual situation will determine what options you will have.

Continuation of coverage- State of Texas

Continuation of coverage
To request an extension of coverage, just call the Member Services toll-free number on the back of your ID card.

How can you extend coverage if you are totally disabled when coverage ends?
Your coverage may be extended if you are totally disabled when coverage ends. Only the medical condition which caused the total disability is covered during your extension.

You are “totally disabled” if you cannot perform all of the substantial and material duties and functions of your own occupation and any other gainful occupation in which you earn substantially the same compensation you earned before the disability.

You may extend coverage only for services and supplies related to the disabling condition until the earliest of:
- When you are no longer totally disabled
- When you become covered by another health benefits plan or
- 12 months of coverage

How can you extend coverage when getting inpatient care when coverage ends?
Your coverage may be extended if you are getting inpatient care in a hospital or skilled nursing facility when coverage ends.

Benefits are extended for the condition that caused the hospital or skilled nursing facility stay or for complications from the condition. Benefits aren’t extended for other medical conditions.

You can continue to get care for this condition until the first to occur of:
- When you are discharged. Coverage will not end if you are transferred to another hospital or a skilled nursing facility.
- When you no longer need inpatient care.
- When you become covered by another health benefits plan.
- 3 months of coverage.
General provisions – other things you should know

Entire student policy
The student policy consists of several documents taken together. These documents are:
- The policyholder's application
- Your enrollment form, if the policyholder requires one
- The student policy
- The certificate(s) of coverage
- The schedule of benefits
- Any riders, endorsement, inserts, attachments, and amendments to the student policy, the certificate of coverage, and the schedule of benefits

Administrative provisions

How you and we will interpret this certificate of coverage
We prepared this certificate of coverage according to federal laws and state laws that apply. You and we will interpret it according to these laws.

How we administer this plan
We apply policies and procedures we've develop to administer this plan.

Who's responsible to you
We are responsible to you for what our employees and other agents do.

We are not responsible for what is done by your providers. Even in-network providers are not our employees or agents.

Coverage and services

Your coverage can change
Your coverage is defined by the student policy. This document may have amendments or riders too. Under certain circumstances, we or the policyholder or the law may change your plan at the time of renewal and according to requirements of the student policy. Only Aetna may waive a requirement of your plan. No other person – including provider – can do this.

If your student status changes the amount of your coverage or benefit levels, the change will take effect on the date of the status change and the amount of coverage or benefit level will be changed to the new amount.

A retroactive change in your student status will not cause a retroactive change in your coverage.

If a service cannot be provided to you
Sometimes things happen that are outside of our control. These are things such as natural disasters, epidemics, fire and riots.

We will try hard to get you access to the services you need even if these things happen. But if we can’t, we may refund you or the policyholder any unearned premium.
Legal action
We encourage you to complete the appeal process before you take any legal action against us for any expense or bill. See the *When you disagree - claim decisions and appeals procedures* section. You cannot take any action until the 61st day after we receive written submission of claim.

No legal action can be brought to recover payment under any benefit after 3 years from the deadline for filing claims.

**Physical examinations and evaluations**
At our expense, we have the right to have a *physician* of our choice examine you. This will be done at all reasonable times while certification or a claim for benefits is pending or under review.

**Records of expenses**
You should keep complete records of your expenses. They may be needed for a claim.

Things that would be important to keep are:
- Names of *physicians, dental providers* and others who furnish services
- Dates expenses are incurred
- Copies of all bills and receipts

**Honest mistakes and intentional deception**

**Honest mistakes**
You or the *policyholder* may make an honest mistake when you share facts with us. When we learn of the mistake, we may make a fair change in *premium* contribution or in your coverage. If we do, we will tell you what the mistake was. We won't make a change if the mistake happened more than 2 years after the certificate of coverage effective date.

**Intentional deception**
If we learn that you defrauded us or you intentionally misrepresented material facts, we can take actions that can have serious consequences for your coverage. These serious consequences include, but are not limited to:
- Loss of coverage, starting at some time in the past. This is called rescission.
- Loss of coverage going forward.
- Denial of benefits.
- Recovery of amounts we already paid.

We also may report fraud to criminal authorities.

Rescission means you lose coverage both going forward and going backward. If we paid claims for your past coverage, we will want the money back.

You have special rights if we rescind your coverage as follows:
- We will give you 30 days advanced written notice of any rescission of coverage
- You have the right to an *Aetna* appeal
- You have the right to a third party review conducted by an independent review organization

We won't rescind your coverage due to an intentional deception if the deception happened more than 2 years after the certificate of coverage effective date.

In the absence of fraud, any statement made is considered a representation and not a warranty. We will only use a statement during a dispute if it is shared with you and your beneficiary, or the person making the claim.
Some other money issues

Assignment of benefits
When you see an in-network provider they will usually bill us directly. When you see an out-of-network provider, we may choose to pay you or to pay the provider directly. If you assign benefits to a provider, we will pay them directly.

Notice of claim
We must receive your claim within 20 days (or as soon as reasonably possible) after you get a covered medical service. You can send the claim to us or to one of our authorized agents. We will send you a claim form within 15 days after we receive your notice of a claim. If we do not send you a claim form within those 15 days, you will automatically be considered to have met the proof of loss requirements. See the Proof of loss section below.

Proof of loss
We must receive written proof of loss from you within 90 days after your loss occurs. If you couldn’t reasonably provide this proof within 90 days, we will still accept your claim. But you must provide the proof as soon as possible, but no later than one year after the 90 days ends (unless you were legally incapacitated).

Time of payment of claims
We will pay benefits to you or your assignee. After we receive your timely proof of loss, we will pay claims within 60 days after we receive the proof of loss. Please see the Proof of loss section above for more information.

Grace period
You will be allowed a grace period of 31 days after the due date for the payment of each contribution due after the first contribution payment. If contributions are not paid by the end of the grace period, your coverage will automatically terminate at the end of the grace period.

Payment of premiums
The first premium payment for this policy is due on or before your effective date of coverage. Your next premium payment will be due the 1st of each month (“premium due date”). Each premium payment is to be paid to us on or before the premium due date.

Recovery of overpayments
We sometimes pay too much for eligible health services or pay for something that this plan doesn’t cover. If we do, we can require the person we paid – you or your provider – to return what we paid. If we don’t do that we have the right to reduce any future benefit payments by the amount we paid by mistake.

When you are injured by a third party
If a third party caused you to need care – say, a careless driver who injured you in a car crash – you may have a legal right to get money for your injuries. If you have a legal right to get money from a third party for causing your injuries, then We are entitled to that money, up to the amount we pay for your care.

When you have a legal right to get money from one or more third parties for causing your injuries and you pursue that legal right.

- You are agreeing to repay us from money you receive from those third parties because of your injuries.
- You are giving us a right to seek money in your name, from those third parties because of your injuries.
- You are agreeing to cooperate with us so we can get paid back in full, up to the applicable amount noted below. For example, you’ll tell us within 30 days of when you seek money from those third parties for your injury or illness. You’ll hold any money you receive until we are paid in full. And you’ll give us the right to our portion of the money you get, ahead of everyone else.
- You are agreeing to provide us notice of any money you will be receiving before pay out, or within 5 days of when you receive the money. Notify us by calling Member Services at the toll-free number on your member ID card.
We will only seek money from your own uninsured/underinsured motorist or medical payments coverage (if any) if you or your immediate family member did not pay premiums for coverage.

If you are represented by an attorney, then we can recover the lesser of:
- One-half of the money you receive, less attorney’s fees and costs for the recovery, or
- The total amount paid by us, less attorney’s fees and costs for the recovery

If you are not represented by an attorney, then we can recover the lesser of:
- One-half of the money you receive, or
- The total amount paid by us

**Important note:**
If a declaratory judgment action is brought, the court may not award costs or attorney’s fees to any party in the action.

### How will attorney’s fees be determined?

<table>
<thead>
<tr>
<th>If we do not use an attorney</th>
<th>If we use an attorney</th>
</tr>
</thead>
<tbody>
<tr>
<td>• We (and any other payors) will pay your attorney a fee agreed to between us (and other payors) and your attorney plus a pro rata share of the recovery expenses</td>
<td>• The court will award attorney’s fees to our attorney and your attorney based on the benefit accruing as a result of each attorney’s service. The total attorney’s fees may not exceed 1/3 of our (and any other payors’) recovery.</td>
</tr>
<tr>
<td>• If no agreement exists, then the court will award your attorney a reasonable fee payable for our (and any other payors’) share of the recovery, not to exceed 1/3 of the recovery</td>

**Payor** means a plan issuer that:
- Has a contractual right of subrogation, and
- Pays benefits to you or on your behalf as a result of personal *injuries* caused by someone else’s tortious conduct

A payor includes, but is not limited to, an issuer of:
- A health benefit plan that provides benefits for medical or surgical expenses incurred as a result of a health condition, *accident*, or sickness
- A disability benefit plan
- An employee welfare benefit plan

**Reimbursement to Texas Department of Human Services**
We will repay the actual costs of medical expenses the Texas Department of Human Services pays through medical assistance for you if you are entitled to payment for the medical expenses.

You will need to ask us to make direct payment to the Texas Department of Human Services.
Your health information
We will protect your health information. We will only use or share it with others as needed for your care and treatment. We will also use and share it to help us process your providers’ claims and manage your plan.

You can get a free copy of our Notice of Privacy Practices. Just call Member Services at the toll-free number on your ID card.

When you accept coverage under this plan, you agree to let your providers share information with us. We need information about your physical and mental condition and care.

Effect of benefits under other plans

Effect of a Health Maintenance Organization plan (an HMO Plan) or a Preferred Provider Organization plan (PPO plan) on coverage

If you have coverage under another group medical plan (such as an HMO or PPO plan) and that other plan denies coverage of benefits because you received the services or supplies outside of the plan’s network geographic area, this student plan will cover those denied benefits as long as they are covered benefits under this plan. Covered benefits will be paid at the applicable level of benefits under the student plan.

- Alcohol in combination with drugs

This can be done by metabolic or other means as determined by a physician or a nurse practitioner working within the scope of their licenses. The process must keep the physiological risk to the patient at a minimum. And if it takes place in a facility, the facility must meet any applicable licensing standards established by the jurisdiction in which it is located.

Directory
The list of in-network providers for your plan. The most up-to-date directory for your plan appears at www.aetnastudenthealth.com under the DocFind® label. When searching DocFind®, you need to make sure that you are searching for providers that participate in your specific plan. In-network providers may only be considered for certain Aetna plans. When searching for contracting dental providers, you need to make sure you are searching under Pediatric Dental plan.

Durable medical equipment (DME)
Equipment and the accessories needed to operate it, that is:

- Made to withstand prolonged use
- Mainly used in the treatment of an illness or injury
- Suited for use in the home
- Not normally used by people who do not have an illness or injury
- Not for altering air quality or temperature
- Not for exercise or training

Effective date of coverage
The date your coverage begins under this certificate of coverage as noted in Aetna’s records.

Elective treatment
Services and supplies provided to you when there is no evidence of pathology, dysfunction, or illness in any part of your body. Examples of elective treatment are:

- Breast reduction
- Sub mucous resection and/or other surgical correction for deviated nasal septum, other than the treatment of covered acute purulent sinusitis

Eligible health services
The health care services and supplies and outpatient prescription drugs listed in the Eligible health services under your plan section and not carved out or limited in the Exceptions section of this certificate of coverage or in the schedule of benefits.

Emergency admission
An admission to a hospital or treatment facility ordered by a physician within 24 hours after you receive emergency services.
Emergency medical condition
A recent and severe medical condition that would lead a prudent layperson to reasonably believe that the condition, illness, or injury is of a severe nature. And that if you don’t get immediate medical care it could result in:

- Placing your health in serious danger
- Serious loss to bodily function
- Serious loss of function to a body part or organ
- Serious danger to the health of a fetus
- Serious disfigurement in the case of a pregnant woman:
  - Serious jeopardy to the health of the fetus
  - One who is having contractions and there is inadequate time to effect a safe transfer to another hospital before delivery or
  - A transfer may pose a threat to the health or safety of the woman or unborn child

Emergency services
Treatment given in a hospital’s emergency room, freestanding emergency facility or comparable emergency facility for an emergency medical condition. This includes evaluation of, and treatment to stabilize an emergency medical condition.

Experimental or investigational
A drug, device, procedure, or treatment that we find is experimental or investigational because:

- There is not enough outcome data available from controlled clinical trials published in the peer-reviewed literature to validate its safety and effectiveness for the illness or injury involved.
- The needed approval by the FDA has not been given for marketing.
- A national medical or dental society or regulatory agency has stated in writing that it is experimental or investigational or suitable mainly for research purposes.
- It is the subject of a Phase I, Phase II or the experimental or research arm of a Phase III clinical trial. These terms have the meanings given by regulations and other official actions and publications of the FDA and Department of Health and Human Services.
- Written protocols or a written consent form used by a facility provider state that it is experimental or investigational.

Formulary exclusions list
A list of prescription drugs not covered under the plan. This list is subject to change.

Generic prescription drug
A prescription drug with the same dosage, safety, strength, quality, performance and intended use as the brand name product. It is defined as therapeutically equivalent by the U.S. Food and Drug Administration (FDA) and is considered to be as effective as the brand name product.

Health professional
A person who is licensed, certified or otherwise authorized by law to provide health care services to the public. For example, nurses, dental providers, vision care providers, and physical therapists.
Home health aide
A health professional that provides services through a home health care agency. The services that they provide are not required to be performed by an R.N., L.P.N., or L.V.N.. A home health aide primarily aids you in performing the normal activities of daily living while you recover from an injury or illness.

Home health care agency
An agency licensed, certified or otherwise authorized by applicable state and federal laws to provide home health care services, such as skilled nursing and other therapeutic services.

Home health care plan
A plan of services prescribed by a physician (or other health professional) to be provided in the home setting. These services are usually provided after your discharge from a hospital or if you are homebound.

Homebound
This means that you are confined to your home because:
- Your physician has ordered that you stay at home because of an illness or injury
- The act of transport would be a serious risk to your life or health

You are not homebound if:
- You do not often travel from home because you are feeble or insecure about leaving your home
- You are confined to a wheelchair but you can be transported by a vehicle that can safely transport you in a wheelchair

Hospice benefit period
A period that begins on the date your physician certifies that you have a terminal illness. It ends after 6 months (or later for which your treatment is certified) or on your death; if sooner.

Hospice care
Care designed to give supportive care to people in the final phase of a terminal illness and focus on comfort and quality of life, rather than cure.

Hospice care agency
An agency or organization licensed, certified or otherwise authorized by applicable state and federal laws to provide hospice care. These services may be available in your home or inpatient setting.

Hospice care program
A program prescribed by a physician or other health professional to provide hospice care and supportive care to their families.

Hospice facility
An institution specifically licensed, certified or otherwise authorized by applicable state and federal laws to provide hospice care.

These are prescription drugs when an oral alternative drug is not available.

**Injury or injuries**
Physical damage done to a person or part of their body.
Institutes of excellence™ (IOE) facility
A facility designated by Aetna in the provider directory as Institutes of Excellence in-network provider for specific services or procedures.

Intensive care unit
A ward, unit, or area in a hospital which is set aside to provide continuous specialized or intensive care services to your because your illness or injury is severe enough to require such care.

Intensive outpatient program (IOP)
The clinical treatment provided must be:
- No more than 5 days per week
- No more than 19 hours per week
- A minimum of 2 hours each treatment day

Services must be medically necessary and delivered by an appropriately licensed or credentialed practitioner. Services are designed to address a mental disorder or substance abuse issue and may include group, individual, family or multi-family group psychotherapy, psycho educational services, and adjunctive services such as medication monitoring.

Jaw joint disorder
This is:
- A disorder of the jaw joint
- A Myofascial pain dysfunction (MPD) of the jaw
- Any similar disorder in the relationship between the jaw joint and the related muscles and nerves

L.P.N.
A licensed practical nurse or a licensed vocational nurse.

Lifetime maximum
This is the most this plan will pay for eligible health services incurred by a covered person during their lifetime. Lifetime maximums do not apply to essential health benefits as classified by the Affordable Care Act (ACA) unless permitted.

Maximum out-of-pocket limit
The maximum out-of-pocket amount for payment of copayments and coinsurance including any policy year deductible, to be paid by you per policy year for eligible health services.

Medically necessary/Medical necessity
Health care services that we determine a provider exercising prudent clinical judgment, would provide to a patient for the purpose of preventing, evaluating, diagnosing or treating an illness or injury, or its symptoms, and that we determine are:
- In accordance with generally accepted standards of medical practice
- Clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the patient’s illness or injury
- Not primarily for the convenience of the patient, physician, or other health care provider
- Not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that patient’s illness or injury
Generally accepted standards of medical practice means:

- Standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community
- Consistent with the standards set forth in policy issues involving clinical judgment

**Medicare**

As used in this plan, **Medicare** means the health insurance provided by Title XVIII of the Social Security Act, as amended. It includes Health Maintenance Organization (HMO) or similar coverage that is an authorized alternative to Parts A and B of Medicare.

**Mental disorder**

A **mental disorder** as defined in the most recent edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM) of the American Psychiatric Association is a syndrome characterized by clinically significant disturbance in an individual’s cognition, emotion regulation, or behavior that reflects a dysfunction in the psychological, biological, or developmental processes underlying mental functioning. **Mental disorders** are usually associated with significant distress or disability in social, occupational, or other important activities.
Glossary N-Z

An FDA approved drug or biological which can only be dispensed by prescription.
Provider(s)
A physician, other health professional, hospital, skilled nursing facility, home health care agency, pharmacy, or other entity or person licensed or certified under applicable state and federal law to provide health care services to you. If state law does not specifically provide for licensure or certification, the entity must meet all Medicare accreditation standards (even if it does not participate in Medicare).

Psychiatric hospital
An institution specifically licensed as a psychiatric hospital by applicable state and federal laws to provide a program for the diagnosis, evaluation, and treatment of substance abuse and mental disorders.

Mental disorders includes related substance abuse disorders.

Psychiatrist
A psychiatrist generally provides evaluation and treatment of mental, emotional, or behavioral disorders.

Recognized charge
The amount of an out-of-network provider’s charge that is eligible for coverage. You are responsible for all amounts above what is eligible for coverage.

The recognized charge depends on the geographic area where you receive the service or supply. The table below shows the method for calculating the recognized charge for specific services or supplies:

<table>
<thead>
<tr>
<th>Service or supply</th>
<th>Recognized charge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Professional services and other services or</td>
<td>105% of the Medicare allowed rate</td>
</tr>
<tr>
<td>supplies not mentioned below</td>
<td></td>
</tr>
<tr>
<td>Services of hospitals and other facilities</td>
<td>140% of the Medicare allowed rate</td>
</tr>
<tr>
<td>Prescription drugs</td>
<td>100% of the average wholesale price (AWP)</td>
</tr>
<tr>
<td>Dental expenses</td>
<td>80% of the prevailing charge rate</td>
</tr>
</tbody>
</table>

Important note: If the provider bills less than the amount calculated using the method above, the recognized charge is what the provider bills.

Special terms used
- Average wholesale price (AWP) is the current average wholesale price of a prescription drug listed in the Facts and Comparisons, Medi-span weekly price updates (or any other similar publication chosen by Aetna).
- Geographic area is normally based on the first three digits of the U.S. Postal Service zip codes. If we determine we need more data for a particular service or supply, we may base rates on a wider geographic area such as an entire state.
- Medicare allowed rates are the rates CMS establishes for services and supplies provided to Medicare enrollees. We update our systems with these revised rates within 180 days of receiving them from CMS. If Medicare does not have a rate, we use one or more of the items below to determine the rate:
  - The method CMS uses to set Medicare rates
  - What other providers charge or accept as payment
  - How much work it takes to perform a service
  - Other things as needed to decide what rate is reasonable for a particular service or supply
- Prevailing charge rate is the percentile value reported in a database prepared by FAIR Health, a nonprofit company. FAIR Health changes these rates periodically. We update our systems with these changes within 180 days after receiving them from FAIR Health. If the FAIR Health database becomes unavailable, we have the right to substitute a different database that we believe is comparable.
Our reimbursement policies
We reserve the right to apply our reimbursement policies to all out-of-network services including involuntary services. Our reimbursement policies may affect the recognized charge. These policies consider:

- The duration and complexity of a service
- When multiple procedures are billed at the same time, whether additional overhead is required
- Whether an assistant surgeon is necessary for the service
- If follow-up care is included
- Whether other characteristics modify or make a particular service unique
- When a charge includes more than one claim line, whether any services described by a claim line are part of or related to the primary service provided
- The educational level, licensure or length of training of the provider

Our reimbursement policies are based on our review of:

- The Centers for Medicare and Medicaid Services’ (CMS) National Correct Coding Initiative (NCCI) and other external materials that say what billing and coding practices are and are not appropriate
- Generally accepted standards of medical and dental practice
- The views of physicians and dentists practicing in the relevant clinical areas

We use commercial software to administer some of these policies. The policies may be different for professional services and facility services.

R.N.
A registered nurse.

Residential treatment facility (mental disorders)
- An institution specifically licensed as a residential treatment facility by applicable state and federal laws to provide for mental health residential treatment programs. And is credentialed by Aetna or is accredited by one of the following agencies, commissions or committees for the services being provided:
  - The Joint Commission (TJC)
  - The Committee on Accreditation of Rehabilitation Facilities (CARF)
  - The American Osteopathic Association’s Healthcare Facilities Accreditation Program (HFAP)
  - The Council on Accreditation (COA)

In addition to the above requirements, an institution must meet the following for Residential Treatment Programs treating mental disorders:

- A behavioral health provider must be actively on duty 24 hours per day for 7 days a week
- The patient must be treated by a psychiatrist at least once per week
- The medical director must be a psychiatrist
